

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

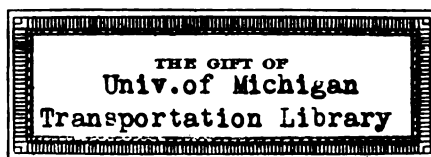

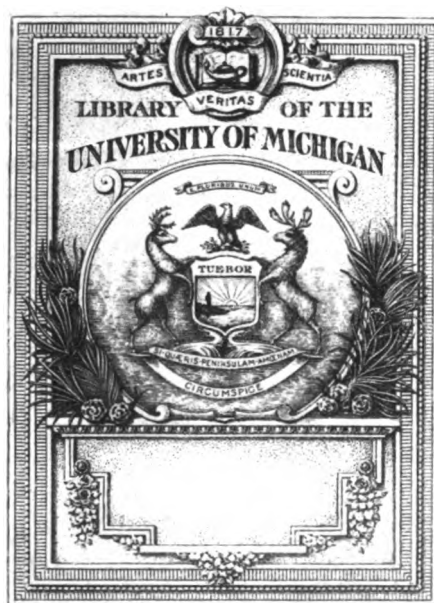

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Ald. Considine having received a majority of all the votes cast he was declared duly elected president of the Common Council for the ensuing year.

On motion of Ald. Holihan the Clerk appointed Ald. Reeves and Jacob as a committee to escort the President to the chair.

On taking the chair the President returned thanks for the honor conferred as follows:

Gentlemen of the Common Council—

In assuming the responsibility of presiding over your deliberations the coming year, I feel it due from me to acknowledge the honor conferred on me, and to return to you my most sincere thanks for this mark of your confidence.

The duties devolving on us as aldermen are not only varied but often perplexing and difficult.

Our official terms should not be attended with an extravagant expenditure in any direction or for any purpose not needed for the public good, of the monies raised and entrusted to our care. The present amount of taxation is now sufficiently oppressive and to the working classes at least are burdensome, without any further increase and as guardians of the interests of the city we should be held to a strict accountability by our constituents.

I doubt not the aim of each one of us will be to enact such laws and render to the executive and other officers of the city such aid and support as shall advance the interests of the city to a higher position than it has heretofore occupied in everything that tends to good order and morality, and in return for such aid we should hold them to a strict accountability.

With a limited experience gathered from a few years service as an Alderman, a sincere desire to perform faithfully and impartially the work you have assigned me, and especially with that co-operation which I hope will be cheerfully accorded me by you, I enter upon its duties with an honest desire to discharge the trust confided to me and I ask and expect both your forbearance and support.

The Board then proceeded to vote for a

Ald. Trombly having received the highest number of votes cast was declared duly elected president pro tem.

Ald Burt was excused.

On motion a committee consisting of Ald. Finney, Lally and Jacob was appointed to wait upon the Mayor and inform him that the board was ready to receive any communication he might desire to make.

The committee returned with his honor, the Mayor, the HON. JOHN PRIDGON, JR., who addressed the board as follows: To the Honorable the Common Council.

Gentlemen—Having, like yourselves, been placed in office by the vote of the people, I have, I trust, a proper appreciation of my duties and responsibilities; also of my accountability to them in the exercise of its functions. To you gentlemen, and to all officials of the city, I look confidently for aid, counsel and co-operation in the honest effort to promote the best interests of our citizens and to give them what they have a right to demand—a prudent, honest and economical city government.

Boards or commissions created by law have been invested with the administration of certain special interests of the city government. They have been composed generally of business men of unquestioned integrity, who have given to their trusts the benefit of their energy, judgment and experience. In this connection there have been, doubtless, errors and omissions, but it is earnestly claimed that we have by this method better results than could be obtained by any other. There is, however, still left to you, gentlemen, sufficient of authority and duty, specified in the charter, to engross all the attention you can desire to give to the affairs of the city.

The most important of your duties and your authority pertains to the subject of public improvements. These should keep pace with the growth of the city, and meet, to the utmost practical extent, the wants of our citizens. This should especially apply to improvements having a sanitary purpose, and the latest annexed territory to the city must require a large outlay in this regard.

The law provides in cases of work requiring mechanical or other especial skill for the letting of contracts to practical men and the employment of competent persons as superintendents. The purpose of these provisions is plain, and its disregard should not be per-

mitted. Contractors should be made to understand that they will be held to the full and strict performance of their agreements.

The public market has had its present location for half a century. We have, as a consequence, a large portion of the public space in the business center of the city, occupied a portion of each day by vehicles loaded with produce. If it is decided that the city should maintain places of sale they should, it seems to me, be of such number and so located that they will the least obstruct our streets or inconvenience the public and yet place the supposed advantages within easy reach of all. In any event I firmly believe that the public market should be removed from its present location.

I understand the general plan of the boulevard to be the making of a wide and continuous road or driveway. As the main improvements are to be uniform for its entire length—over ten miles—the first outlay in this regard should be carefully considered, that the aggregate sum demanded may not be far in excess of the amount which the city should so expend. The right of way for portions of its proposed route has not yet been obtained, and until it is secured it seems plain that we have no right to make any considerable expenditures upon it.

The remarkable growth in the popularity of Belle Isle park recommends itself to your attention. The additional means of access to be afforded by the bridge when completed will add to the favor in which it is already held, and appropriations for the improvement of this park should be liberal to the largest reasonable extent.

The necessity of putting electric light and all other wires underground in the business center of the city has been in the past made apparent, and is so often and with growing frequency demanded, that persistent and continuous efforts should be made until the desired end is accomplished.

The net bonded debt of the city has increased from \$12,231 in 1885 and \$36,490 in 1896 to \$508,015 at the end of the fiscal year of 1897. I am strongly of the opinion that we should consent to its further increase only when required to do so by urgent necessity.

The character of the site and the increasing needs of the people should stimulate us and all citizens to aid, by public expression, the efforts of our representatives at Washington in securing an additional appropriation for the government building to be erected in Detroit, so that it will be in harmony with its surroundings and add to, instead of detract from, the importance of our city.

In line with my duty to see that all officers of the city faithfully discharge their official duties, I call the attention of the heads of departments to the fact that the hours of service of their subordinates have been duly fixed and that during all such hours they should be required to serve the city with the diligence demanded in private employ.

The message of my predecessor and the reports of the several departments furnish information of the condition of our municipal affairs, and to these you are respectfully referred.

The charter provides that the Mayor shall from time to time give the Common Council such information and recommend such measures as he shall deem necessary or expedient. I shall not be unmindful of this duty.

Respectfully,  
JOHN PRIDGON, JR.,  
Mayor.

In view of the constantly increasing litigation growing out of the defective condition of sidewalks I suggest that some more rigid system of sidewalk inspection should be devised. The majority of accidents occur by reason of loose planks, small holes in other wise fair walks, and unevenness in construction. The police might be requested to report these defects to the Board of Public Works, and the board should have the discretionary power to repair when the repairs could be done at less expense than it costs

under the present system to notify the owner of the defect, and the delay and danger incident to the service of notice be thus avoided.

I submit a detailed statement of the pending litigation in this branch of the legal department and of the work done by me in that connection.

*Cases Disposed Of.*

The following cases have been disposed of since July 1st, 1887.

*In The Wayne Circuit Court.*

1. Stephen Moore vs. Benjamin Briscoe et al. This case was for damages because of the grade of Woodbridge street. The Court held that the law was not complied with in the change of the grade, and the jury found a verdict for the plaintiff for \$1,350.
2. Stephen Moore vs. The City of Detroit. This action was brought to recover about \$400 which said Moore had paid under protest for the paving of Woodbridge street. Upon my recommendation the sum of \$1,500 was paid in settlement of this case, the judgment obtained in the preceding case, and also a claim said Moore had for the change of the grade of Twenty-fourth street.
3. Nellie S. Larned vs. The City of Detroit. This action was brought for the recovery of damages for the change of the Twenty-fourth street grade, and upon my recommendation the plaintiff was paid the sum of \$500 in settlement thereof.

4. William N. Dixon et al. vs. The City of Detroit. This case was discontinued by stipulation.

5. Thos. Lowe et al. vs. The Park Commissioners Garnishee Defendants. In this case case I advised the Park Board that they were not liable to garnishment, but as a matter of precaution a bond was taken from the principal defendant and the balance of the money due him was paid over.

6. William N. Dixon vs. The City of Detroit et al. This is the Myrtle street paving case. Complainant obtained an injunction restraining the city from paying the contractor. Application was made by defendants and the injunction was dissolved, which practically disposes of the case.  
In the Supreme Court of The State of Michigan.

7. Virginia Defer et al. vs. The City of Detroit. My predecessor demurred to the declaration in this case and the demurrer was sustained by the Circuit Court, and plaintiffs took the case to the Supreme Court, where the judgment of the court below was reversed and the case is now pending in the Circuit Court.

8. In re opening Riopelle street.—This case is in the Supreme Court. It was argued and submitted at the last October term but has not yet been decided. The court raised a question as to the constitutionality of the street opening law and I prepared and submitted a supplemental brief on that question. In the United States Circuit for Eastern District.

9. George S. Osborne vs. the City of Detroit. Case by husband for loss of services of wife who was injured by defect in a sidewalk. Settled by payment of \$800.

10. Benjamin Gath vs. The City of Detroit. Case similar to last named. Settled by payment of \$500.

11. Thomas J. Whidbourne vs. the City of Detroit. Case of same nature as last named. Settled by payment of \$300.

12. Mary J. Cowan vs. the City of Detroit et al. Case for injuries received by reason of defective sidewalk. A trial was had resulting in a verdict for plaintiff for \$250. Plaintiff moved for a new trial, and the court having omitted to charge the jury that plaintiff was entitled to recover for the expenses of medical attendance, ordered a new trial unless the city should pay the additional sum of \$100. Upon my recommendation the Common Council ordered the payment of that sum.

13. Marion Yeates vs. The City of Detroit. Case for injuries by reason of defective sidewalk. A trial resulted in a verdict of \$283.

14. Jane Ann Watt vs. The City of Detroit. Sidewalk injury case. A trial resulted in a verdict of \$525 for plaintiff. Plaintiff moved for a new trial but the court denied the motion.

15. Kate Moreland vs. The City of Detroit. Case for sidewalk injury. Settled the payment of \$220.

16. Sarah Wilks vs. The City of Detroit. Case for sidewalk injury. I demurred to plaintiff's declaration, and the same has been argued and submitted.

In the Probate Court.

17. In re Estate of Elizabeth Ford. The Receiver of Taxes makes a claim against the estate for unpaid personal taxes. I filed a petition to revive the commission on claims so as to enable the Receiver to present his claim and the matter is now awaiting a hearing.

18. In re Estate of Jeanette L. Teft. The receiver of taxes makes a similar claim against this estate. I have presented the claim and made the proofs before the commissioner on claims and the matter is now awaiting their decision.

In Justice's Court.

19. Christian Moroes vs. James R. Elliott.

Defendant is assistant chief of fire department and was sued by Moroes before Justice Roes for damages for tearing off a portion of the roof of plaintiff's barn during the progress of a fire therein. Judgment was rendered for defendant and plaintiff has appealed to the circuit court.

To the Honorable the Common Council.  
Gentlemen—The Board of Public Works, who were authorized by the Common Council at a session held December 13, 1887, to approve O'Brien's plat of the subdivision of the east half of the Lafontaine farm, lying between Grand River and Warren avenues, and lots 487 to 441 inclusive of the subdivision of the Godfrey farm, respectfully return the same to your honorable body without their approval, the same creating a jog in Fifteenth street, contrary to the general plan of the city.

To the Honorable the Common Council.  
Gentlemen—The Board of Public Works, who were, by the Common Council, on the 13th and 14th days of July, 1887, authorized to approve F. C. Trowbridge's replot of the east part of lots 2, 3 and 4 of the subdivision of the north half of outlot 3, Dequindre farm, respectfully inform your honorable body that by approving this plat (if not legally) it will virtually establish a claim on the part of the property owners in vacating thirty feet of that portion of Dequindre street adjacent to the lots resubdivided, thereby closing a passageway, except on the railroad track, between Garfield and Forest avenues. This would undoubtedly be an inconvenience to the public for the especial benefit of an individual, and the Board, in view of this fact, is disinclined to approve this plat, and return the same to your honorable body for further consideration.

Whereas, Said lateral sewers have been examined by the Board of Public Works and found to have been constructed in accordance with the contracts and specifications for the same; therefore,

Resolved, That the lateral sewers as above described are hereby accepted, and the Controller is hereby directed to cause the assessment rolls therefor to be placed in the hands of the Receiver of Taxes for collection.

Accepted and laid on the table.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Section 5 of chapter 53 of the ordinances approved July 10, 1898, provides that no person shall be permitted to connect any drain from his premises with any public or lateral sewer or drain now made or constructed or hereafter to be made or constructed in said city, except on previous application in writing to and permission therefor granted by the Common Council. In enforcing the provisions of this ordinance it causes much delay and inconvenience to the public. In certain seasons of the year applications for permits of this nature are quite numerous, and to compel parties to await the action of the Council would be a hardship. Under the charter the board believes that the power was vested in the board to grant these permits, but the Council, having ordained otherwise, divests the board of this power. The board therefore recommend that this ordinance be so amended as to insert after the words "Common Council the words or "Board of Public Works."

Respectfully submitted,

W. H. LANGLEY,  
President.

Ald. Jacob moved to refer to a special committee.

Ald. Trombly moved to amend to refer to the Committee on Ordinances.

Which the chair declared carried.

Ald. Jacob appealed from the decision of the chair.

The question then recurring on the motion of Ald. Jacob, shall the decision of the chair "stand as the judgment of the Council." The chair was not sustained as follows:

Yeas—Ald. Blesser, Guiney, Hayes, Holihan, Kellogg, Lally, McGuire, O'Regan, Trombly and the President—10.

Nays—Ald. Amos, Fairbairn, Gilmore, Griggs, Hartness, Jacob, Karrar, Lander, McIntyre, Meier, Pfeiffer, Reichenbach, Reschke, Reyes, Smith, Tierney, Uthes—17.

Ald. Jacob then moved that Ald. Amos, Fairbairn and Lander be appointed a special committee.

The chair did not entertain the motion of Ald. Jacob.

The original motion of Ald. Jacob was then carried.

The chair then appointed the following committee, viz.: Ald. Kellogg, McGuire and Reschke.

FROM THE SAME.

To the honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petition of the Backus company offering to sell the city an improved furnace, respectfully report that if in heating the City Hall soft coal was used,

this furnace would undoubtedly be beneficial in the consuming of smoke arising therefrom, but inasmuch as hard coal is used for this purpose it is the opinion of those who have examined the furnace that it would be of no service in the City Hall. The Board therefore recommend that the proposition to place the same in the City Hall be rejected.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petition of E. Chope and others, representing a majority of property owners, for paving Grand River avenue from the west line of Lafontaine farm to the east line of the city limits with cedar blocks and cobble stone pavement (on board foundation), respectfully recommend that the prayer of the petitioners be granted.

It is estimated that the whole cost of the pavement will amount to about \$1.75 per square yard.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and laid on the table.

FROM THE BOARD OF ASSESSORS

To the Honorable the Common Council.

Gentlemen—We herewith transmit to your honorable body assessment roll No. 21 (old 428), for grading and paving Jefferson avenue from the east curb line of Beauhien street to the railroad bridge.

The usual notice required by law has been given to parties in interest, as will appear by the annexed notices and affidavits of publication. No person has appeared to object to said rolls, or to ask any correction thereof. We have therefore signed the same and report them to you.

JOHN J. PERREN.

President Board of Assessors.

Accepted and on leave the following was offered:

By Ald. Fairbairn.

Resolved, That assessment roll No. 21 (old 428), for paving and grading Jefferson avenue from the east curb line of Beauhien street to the railroad bridge, is hereby approved and confirmed, that the description of premises and the names of persons contained therein are received as correct, and that the sums which the said assessment roll states to be the correct ones which each individual or set of individuals should be assessed at and pay, be the assessment and be collected from the several persons liable to pay the same according to law.

Laid on the table.

FROM THE BOILER INSPECTOR.

To the Honorable the Common Council.

Gentlemen—The amount of work in this department renders the continuance of the services of the second assistant boiler inspector necessary. I therefore respectfully ask your honorable body for authority to employ said assistant inspector for a period sufficient to complete the work at a salary not to exceed the former amount paid him per month for such services.

Respectfully,

GUSTAV PEFFER.

Accepted and laid on the table.

FROM THE FIRE COMMISSIONERS.

To the Honorable the Common Council.

Gentlemen—The Fire Commission submit herewith a statement of fees collected for permits issued by the Fire Marshal for the month of December, 1897. The money thus collected has been paid into the City Treasury as the law provides.

By direction of the board.

JAMES E. TRYON,  
Secretary.

Accepted and referred to Committee on Ways and Means.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council to His Honor the Mayor on the 17th instant, and that they were approved on the 23d.

Accepted and placed on file.

Also that Joseph Nicholson, Superintendent of the House of Correction, and James H. Kelly, Deputy City Clerk, have filed their official bonds.

Referred to the Committee on Ways and Means.

FROM THE CLERK OF THE RECORDER'S COURT.

To the Honorable the Board of Aldermen.

Gentlemen—I respectfully report to your honorable body that a jury duly impanelled in the Recorder's Court, in the matter of opening, widening and extending Welch avenue, from Horatio street north to the city limits, where not already open, 66 feet wide rendered a verdict in favor of said opening December 17, 1887, which was confirmed by the court December 31, 1887.

In accordance with the statute, I herewith transmit a certified copy of said verdict, and of the judgment of confirmation.

Respectfully,

GEORGE H. LESHER,

Clerk.

Accepted, and by unanimous consent the following resolution was offered:  
By Ald. Holihan.

Resolved, That the City Treasurer be and he is hereby directed to proceed to collect the benefits assessed by the court and jury in the case of the proceedings to open, widen and extend Welch avenue, referred to in the above communication from the Clerk of the Recorder's Court; and if such assessments are not paid or tendered to said Treasurer within fifty days, that said Treasurer be and he is hereby directed to sell the property assessed, in the cases where the assessments remain unpaid, in the same manner as is provided by law for the sale of real estate upon execution; also.

Resolved, That when such collection of assessments or sales therefor shall be completed, the City Treasurer be and is hereby authorized and directed to pay or tender to the respective persons entitled to receive the same, the damages and compensation awarded for taking private property according to the verdict above mentioned; and if he be unable to pay the same for any lawful reason, then the amount awarded is hereby directed to be deposited in the City Treasury as authorized and provided by law.

Resolved, That when the City Treasurer shall file his certificate of his action as required by law, that the Board of Public Works be and are hereby directed to cause the removal of any and all obstructions in the line of said opening.

Yeas—Ald. Amos, Bleser, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Holihan, Jacob, Karrer, Kelllogg, Lally, Lander, McGuire, McIntyre, Meier, O'Began, Pfeifer, Reichenbach, Reschka, Reeves, Smith, Tierney, Trombly, Uthes and the President—27.

E. F. White, as appears in the journal of this house of Jan. 17, 1888, respectfully report that we find upon investigation that the deed in question has been withdrawn and another one substituted, which definitely sets forth the consideration to be paid by the city for the land transferred. We therefore recommend its acceptance, and herewith present the proper resolution.

C. K. TROMBLY,

J. E. LALLY,

FRANK N. REVES.

It shall only be admitted when demanded by a majority of the members present, and its effect shall be to put an end to all debate, and to bring the Board to a direct vote upon a motion to commit, if such motion shall have been made, and if this motion does not prevail, then upon amendments reported by a committee, if any; then upon pending amendments and then upon the main question.

Rule 21. On the call of any member a division of any question may be made, when the question will admit of a division so distinct that one part being taken away, the other will stand as an entire question for decision.

It shall be in order to amend at any time before the final passage of an ordinance.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—In reply to an advertisement from this office inviting proposals for furnishing the City of Detroit with one hundred maps, the Calvert Lithographing, Engraving and Map Publishing Co. agrees to furnish the maps as per requirements of the advertisement for the sum of fifteen hundred dollars (\$1,500).

Some time after the bids were opened another proposal was received from Mr. Wm. C. Sener which could not be entertained and is still unopened.

I suggest that the matter be referred to the Committee on Ways and Means for consideration.

Respectfully,  
PETER RUSH,  
Deputy Controller.

Accepted, and referred to the Committee on Ways and Means.

FROM THE CITY COUNSELLOR.

To the Honorable the Common Council.

Gentlemen—In the case of the City of Detroit against Amos Chaffee, Judge Reilly has decided that the section of the city charter under which the city sued Amos Chaffee does not create any liability over upon the lot owners after the expiration of the ten days within which the lot owner is allowed to construct and repair the sidewalk, and directed a verdict for the defendant.

Mr. Duffield, who tried the case, is confident that the Supreme Court will hold otherwise, and in view of the importance of the question it is desirable that the opinion of the Supreme Court be had. The ruling of Judge Reilly practically annuls the charter provision.

Mr. Duffield joins with me in the recommendation that the case be taken to the Supreme Court at once, so that an early decision be had and the rights of the city in this class of cases determined.

Respectfully,  
JOHN W. McGRATH,  
City Councillor.

Accepted and on motion of Ald. Finney the communication was concurred in as follows:

Yeas—Ald. Amos, Blosser, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollihan, Jacob, Karrer, Kellogg, Lally, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—80.

Nays—None.

#### STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of Bela Hubbard and others for the opening of Warren avenue and Plymouth avenue one

hundred feet wide, respectfully report that they have given the same their careful attention and find that it is proposed to open Warren avenue 100 feet wide from Grand River avenue westerly to a point where Plymouth avenue if extended would intersect the same; that this point would be at or about Twenty-fourth street; that Plymouth avenue is now open in places 100 feet wide and at other points 66 feet wide, and that the purpose is to make it a uniform width of 100 feet to the city limits.

Your committee find that such an opening is greatly desired by a large number of the property owners, and would afford an outlet to a large territory, and as it would not be attended by a very large expense, your committee recommend that the petition be granted and the City Attorney directed to prepare the proper resolution for opening the same as above set forth.

PETER RUSH,  
Deputy Controller.

Accepted and referred to the Committee on Claims and Accounts.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—In compliance with section 168 of the City Charter, I have the honor to report that in pursuance of a resolution of the Common Council I caused to be prepared one hundred Public Improvement bonds numbered 577 to 676 inclusive of \$1,000 each, bearing interest at the rate of \$65-100 per cent per annum. These bonds were awarded to the People's Savings Bank of Detroit and delivered by me to the City Treasurer on the 6th inst., taking his receipt therefor as provided in the City Charter. The amount to be paid to the City Treasurer for said bonds is as follows:

100 Public Improvement bonds No. 577 to 676 inclusive, \$1,000.00 each.....	\$100,000 00
Premium on same 1-10 of 1 per cent.....	100 00
Accrued interest 36 days at \$ 65-100 per cent.....	800 00
	<hr/> \$100,400 00

I recommend that the matter be referred to the Committee on Ways and Means.

Respectfully,

PETER RUSH,  
Deputy Controller.

Accepted and concurred in.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The following resolution, offered at a meeting of the Common Council Jan. 31, was by your honorable body referred to the Controller:

Whereas, The present method of acting on the reports of the Controller relative to claims and accounts by the Board of Aldermen is such as to prevent intelligent action on said reports; therefore, be it

Resolved, That hereafter the Controller be and he is hereby directed to have his reports relative to claims and accounts published in the official paper of the city on the morning of the day on which the Council meets, thereby enabling members of this board to vote intelligently on such claims, etc.

After careful consideration of the matter I have leave to say that there can be but one valid objection to the method suggested in

the resolution, and that is the item of expense. The extra cost of printing the list of approved accounts in the official paper of Tuesday and again in the official proceedings of the Common Council will be, at the lowest estimate, \$300 per annum.

Respectfully,

PETER RUSH,  
Deputy Controller.

Accepted and placed on file.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I have been served with a subpoena, etc., in the case of A. Cass Canfield et al. against the City of Detroit et al., commenced in the Circuit Court for the county of Wayne in chancery.

I recommend that they be referred to the City Counselor, with instructions to protect the interests of the City of Detroit.

Respectfully,

PETER RUSH,  
Deputy Controller.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Bart, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hollihan, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reyes, Smith, Tierney, Trombly, Uttes and the President—30.

Nays—None.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I herewith transmit to your honorable body a letter from Samuel P. Duffield, M. D., Health Officer, relative to the sanitary condition of the Police Court building. As the question is of the utmost importance I recommend that the letter of the Health Officer be printed in the official proceedings and be referred to the Committee on Public Buildings for consideration and report.

Respectfully,

PETER RUSH,  
Deputy Controller.

The following is the communication;

Hon. Wm. B. Moran:

Dear sir:—Yesterday I made an examination of the Police Court with the following result:

I find underneath the floor a collection of dampness and filthy decomposing earth, from which malarial exhalations will be given in warmer weather. No means of ventilation, except through windows and a valueless substitute in the way of wooden ventilator at the top of ceiling. I consider the whole building in a very unsanitary condition and money expended to improve its condition would be virtually thrown away, as the present arrangement of rooms precludes any satisfactory method of cure.

I would recommend that the Justices be assigned other rooms until a better building or rooms can be built in which proper heating and ventilation can be fully and perfectly carried out. This is specially necessary in a police court, as diseases of throat and posterior nasal cavities are often present in those attending, as well as the criminals, and are of such a character as to generate very bad, almost insufferable odors.

It is not right to ask these Justices to breathe air laden with such abominable, decaying and sometimes even poisonous organic matter.

This language may seem somewhat strong, but if I err at all it is in having not placed the situation of these Justices in stronger words.

I would again urge upon your consideration that it is positively dangerous to the health of all concerned in the administration of their duties to have to perform their work in such a filthy disease infiltrated building. It should be torn down. No attempt should

be made to patch up such an inadequate, unhealthy court-room.

Very respectfully,  
SAMUEL DUFFIELD, M. D.,  
Health Officer.

Ald. Amos moved that the whole matter be referred to the Committee on Ways and Means.

Carried.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council.

Gentlemen—I have to report that I have just finished the trial of the case of Fanny A. Joslyn against the City of Detroit, which was a case for an injury caused by driving upon a pile of sand placed in the roadway on Clifford street by some contractors who were building upon the abutting premises. I insisted, on behalf of the city, that it was not liable. The court took that view, and took the case from the jury.

Respectfully yours,  
JOHN W. McGRATH,  
City Counselor.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I have to report that the case of William A. Coots against the city of Detroit was recently tried and resulted in a verdict against the city for the sum of \$10,000.

It appears in this case that the plaintiff, knowing that Michigan avenue was out of repair, drove down said avenue with horses at a gallop, and in broad daylight drove into a hole in the street three feet wide, two feet deep, and extending from the street car track to near the curb.

In view of this state of facts I requested the court to take the case from the jury, for the reason that plaintiff had contributed to the injury by his own neglect, but the court refused.

I have no doubt that the Supreme Court will reverse this decision. I therefore recommend that the case be appealed.

Respectfully yours,  
JOHN W. McGRATH,  
City Counselor.

Accepted and leave being granted Ald. Jacob offered the following resolution:

By Ald. Jacob.  
Resolved, That the City Counselor be instructed to take such measures as are necessary to take the case of William A. Coots against the City of Detroit to the Supreme Court of the state.

Adopted as follows:

McCracken, as appears in the Journal of the Common Council of January 17, 1888, and also the petition of S. B. McCracken for the payment of said \$150, for his services in compiling the election laws, respectfully report, that we have considered the same; and that Mr. McCracken appeared before your committee and made a statement of his contract for performing said work, in which it appeared that some time during December last the Committee on Judiciary employed him to make a compilation of the election laws, at an agreed compensation of \$150. That in accordance with the contract, and to the best of his ability, he has completed the work and turned the same over to the committee employing him, who have approved and accepted the same. He further claims that the approval of the City Counselor and City Attorney as mentioned in the original resolution empowering the Judiciary Committee to have the work done, was not a part of his contract, and that payment to him for the work done by him in good faith should not be contingent upon their action.

Upon this statement of facts the City Attorney has advised your committee that in fairness and justice the petitioner is entitled to his pay. We therefore recommend that his prayer be granted, and that the resolution of Ald. Jacob be adopted.

Respectfully submitted,

JAMES HOLIHAN,

Gentlemen—Your Committee on Taxes, to whom was referred the petition of E. T. As he certainly should not be asked to pay taxes upon which he does not own, we recommend that he be allowed the sum set forth in the accompanying resolution.

GEO. F. REICHENBACH,  
JAMES TIERNEY.

#### STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of George Fletcher and others, property owners and taxpayers in the neighborhood of Fifteenth street and Grand River avenue, remonstrating against the acceptance and approval of a plat of Fifteenth street, which is not in accordance with the general plan of the city, respectfully report that we have carefully examined the matter of said remonstrance and find that the proposed plat does not conform to the general plan of the city and in our judgment should not be approved by the Board of Public Works. Fifteenth street is already open in a straight line from Fort street to the old city limits on the north with the exception of about 300 feet between Grand River and Warren avenues, which it is proposed to plat with two irregular jogs in the street.

Your committee believe that if such plat is allowed it will not only destroy the regularity of the street without sufficient reason, but it will be a positive injury to the property of others in the neighborhood, and therefore recommend that the resolution heretofore passed authorizing the approval of such plat be revoked and rescinded.

Respectfully,  
WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.  
Committee on Street Openings.

MIKE MCQUIRE,  
ERNEST L. RESCHKE.

Gentlemen—On the 31st ultimo the Board reported to your honorable body the proposals for constructing plank crosswalks in the Eastern and Western Districts for the year ending January 31, 1899, but in the resolution directing the Board to execute contracts therefor the Western District was omitted, thereby leaving that part of the city unprovided with a contractor for constructing plank crosswalks. John B. Fisher was the lowest bidder for this work (the same being 29 cents per lineal foot for constructing crosswalks, and for scuttling for bridging two cents per lineal foot.) The Board of Public Works therefore recommend that he be awarded the contract therefor.

Respectfully submitted,  
W. H. LANGLEY,  
President.

Referred to the Committee on Streets.

FROM THE INSPECTORS OF HOUSE OF CORRECTION.

The Honorable the Common Council of the City of Detroit.

Gentlemen—The Inspectors of the Detroit House of Correction present herewith the twenty-sixth annual report of the Superintendent.

The Superintendent's report is satisfactory in every respect to the Board.

We present to your honorable body as an illustration of its financial condition the sum of forty-five thousand dollars (\$45,000).

We also herewith submit the reports of the Physician and Teacher, showing a very satisfactory condition of affairs in their departments.

Respectfully,

STEPHEN BALDWIN,  
ALBERT IVES, JR.,  
F. W. LICHTENBURG,  
W. J. CHITTENDEN.

To the Board of Inspectors.

Gentlemen—I respectfully submit the twenty-sixth annual report of this institution, the same being for the year ending Dec. 31st, 1897.

The sanitary condition is excellent; the general health of the inmates very good; every outlay deemed proper to keep the buildings, machinery, etc., in good repair has been made, and nothing occurred during the year to mar the usual good order.

The improved condition in business generally created a good demand for our wares, which with a slight advance in prices makes the financial results for the year all that could reasonably be expected.

In former reports I briefly alluded to the fallacy of short sentences for repeated offenses as being neither deterrent nor reformatory. Universal experience in such matters has proved this; as an instance, we had "twelve hundred and fifty-three commitments" during the year for thirty days and under; such trifling with crime in its incipient stages produces only a loss of self-respect, contempt for such law and incorrigibility.

I strongly recommend the formation of a "Prisoners' Aid Society," on a practical basis, to provide at least temporary employment for those who would accept it, as it is a most critical period in the life of the unfortunate when the prison garb is exchanged for citizen's attire for the first time. A very little encouragement then would save many from a relapse into criminal pursuits.

The library is well supplied with suitable books by the best writers, and all who desire have ample opportunity to improve their minds by reading and attending our evening school.

Our non-sectarian Sunday morning service of worship, conducted by resident clergymen in turn, continues. Also the bible class on Sunday afternoons, for all who choose to attend, is conducted by Mr. William A. Strong for the men, and Mrs. P. H. White for the women, whose untiring zeal in the cause is worthy of the highest commendation.

I desire to return my thanks to the clergy and to the ladies and gentlemen who assisted in our Sunday services, and to you, gentlemen, I again renew my obligations.

I am ready to pay over to the city when duly authorized the sum of \$45,000, which can be apportioned without detriment to the business of the institution.

JOSEPH NICHOLSON.

Superintendent.

To the Board of Inspectors of the Detroit House of Correction.

Gentlemen—It gives me much pleasure to report that the health of the inmates of the Detroit House of Correction during the past year has been exceptionally good, and that the number of deaths, as compared with the mortality of previous years, has been small.

Among the causes which have contributed to this favorable showing the chief have, unquestionably, been the continued excellence of the hygienic and sanitary conditions which have won for the institution its enviable standing in these regards among similar institutions of this country.

The food of the convicts is intelligently adapted to their environment, the labor which is exacted of them is not excessive and the ventilation of their workshops and cells conform to the most approved principles. As a result there has not originated in the institution during the past year a single case of any of the so-called preventable diseases. When it is remembered that the average attendance has been 428, and when the depraved physical condition of the average recent convict is considered, this showing, the credit of which is chiefly due Supt. Nicholson, is certainly one which challenges admiration.

Of the seven deaths, a tabular report of which is herewith appended, five were of consumption, one of pneumonia and one of syphilis, and of this number the victim in one case only was from Michigan, the remaining six having been sent from southern latitudes.

I took occasion in my report of last year to comment on the prevalence of syphilis among the criminal classes and to reflect on the lack of attention on part of the authorities to the prevention or repression of this blight. The record during the past year shows little or no abatement of the disease among the convicts sent to the Detroit House of Correction.

I realize the difficulties in dealing with so grave an evil, but do not concede that these difficulties should cause it to be utterly ignored.

I desire now to ask your attention to an evil which it should not be difficult to correct. I refer to the short sentences to this institution which are passed on the habitual drunkard and abandoned women.

Recognizing the fact that inebriety and wantonness are, to a large extent at least, diseases, the facilities at my disposal for making the experiments in the direction of curing the unfortunate victims who are sentenced to the Detroit House of Correction are, in my opinion, such as should be freely utilized.

The enforced abstinence from stimulants, the regular habits, the wholesome diet, the daily exercise and the excellent hygienic and sanitary conditions to which these unfortunates are here subjected, are among the means best calculated to break up their vicious habits.

Their effect is apparent even in the short time (twenty or thirty days) for which they are usually sentenced.

The time for which they are operative is, however, too short for them to exert their fullest possible beneficial action.

I would therefore suggest the advisability of action on the part of your honorable body looking toward a carrying out of the suggestion here made.

I desire to renew my thanks to Supt. Nicholson and his deputy, Henry Woifer, and the matron for their intelligent and cordial

co-operation in the work which has fallen more particularly in the line of my duty.

Very respectfully,  
AUGUSTUS KAISER, M. D.

To the Inspectors of the Detroit House of Correction:

Gentlemen—I herewith most respectfully submit my annual report of the evening school of the Detroit House of Correction. The attendance this year has been less than it has for some years past, owing to the fact that there are fewer inmates in the institution.

Of the attendants about 28 per cent were unable to read or write; 7 per cent were able to read only, and that very poorly; 70 per cent could read and write, but only 10 per cent could read with any fluency or expression, or write a letter with any near approach to correct spelling or the correct use of capital letters.

The schools of former years were made up partly of western men, who never had any educational advantages in their youth.

They eagerly took advantage of the facilities this school afforded, and labored diligently to acquire that which in their youth had been denied them.

Many of them have gone back to their homes wiser and no doubt better men.

Other attendants were men whose early advantages were much better, but who through their own indifference or that of their parents failed to profit by them.

Many of them now treat their opportunity to improve their education in about the same manner they do opportunities for honest labor when not in prison. They express a desire to improve their education, but would like to have some one else perform the mental labor required to do it. There are others of this class who, realizing the advantages lost in their youth, are now studying hard to make up for their former neglect.

From among those who already possessed a good education I selected my assistant teachers, and to their diligence and faithfulness I must ascribe a great deal of the success of the school.

I have the honor to be, gentlemen,

Your obedient servant,

J. K. MOORE,

Teacher.

Accepted and ordered printed in the proceedings.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ways and Means, to whom was referred the communication from the Deputy Controller of January 31st, 1893, in relation to the bids received for furnishing the city with 100 maps, as appears in the Journal of this house of that date, respectfully report that we have considered the matter and recommend the rejection of all bids and re-advertising for new bids.

#### COMMITTEE ON STREETS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Streets, to whom was referred the following:

By Ald. Tierney.  
Whereas, At a session of the Board of Aldermen, held Nov. 15, 1887, the Committee on Streets reported unanimously against the confirmation of roll 7740 for laying a sidewalk at corner of Buena Vista and Noble streets for the reason that said walk was not laid in accordance with the contract and specifications for laying plank sidewalks; and,

whereas, Said roll is now advertised by the Receiver of Taxes for non-payment of the assessment for laying the said walk; therefore,

Resolved, That the Receiver of Taxes be and he is hereby requested to not sell said property until further orders of this Council.

Resolved further, That the whole matter be referred to the Committee on Streets for further investigation and report to this Council the result of said investigation.

Respectfully report that we have considered the matter and find that the work was not done in accordance with the plans and specifications of the contract. We therefore recommend that roll No. 7740 be not confirmed until such time as the contractor shall have constructed a walk in accordance with the plans and specifications of the contract.

#### HOUSE OF CORRECTION.

To the Honorable the Common Council.

Gentlemen—Your Committee on House of Correction, to whom was referred the reports of the Inspectors and Superintendent of the Detroit House of Correction, respectfully report that we have carefully examined the same and recommend their adoption and reference back to the Superintendent for printing as usual. We further recommend that a vote of confidence and thanks be, and the same is hereby tendered to Superintendent Joseph Nicholson for the very able, efficient and successful manner in which he has discharged the onerous duties of Superintendent of this important institution. We beg leave to offer the following resolution.

Respectfully submitted,  
MIKE MCGUIRE,  
WILLIAM UTHES.

Accepted and on leave the following was offered:

By Ald. McGuire.

Resolved, That the reports of the Inspectors and Superintendent of the Detroit House of Correction be accepted, and that the Superintendent be and he is hereby authorized to pay over to the city the amount specified in his report, to wit: the sum of \$45,000, and the City Controller is hereby directed to place the same to the credit of the contingent fund.

Accepted and placed on file.

Ald. Jacob moved to strike out the words "contingent fund" and insert the words "building fund" for the purpose of enlarging the City Hall.

Carried.

The resolution as amended was then adopted as follows:

Yeas—Ald. Amos, Bleser, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, Holihan, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Martz, Meier, O'Began, Peterkin, Pfeifer, Reichenbach, Reeves, Smith, Tierney, Trombly, Uthes and the President—23.

#### FIRE LIMITS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Fire Limits, to whom was referred the petition of Frank Gidnean and others for the extension of the fire limits, as appears in the journal of this house under date of Jan. 31, 1888, respectfully report that we have considered the matter and taken counsel with the Fire Marshal thereon. We recommend that the Committee on Ordinances be requested to prepare and present to this body an amendment to the ordinance defining the fire limits to include the territory described in the accompanying resolution.

Respectfully submitted,  
GEO. F. REICHENBACH,  
J. B. LAUDER,  
S. A. GRIGGS.

Accepted and on leave the following was offered:

By Ald. Reichenbach.

Resolved, That the Committee on Ordinances be and they are hereby requested to prepare and present to the Common Council for adoption an amendment to the ordinance defining the fire limits, including all that parcel of land lying north of High street from the east line of Brush street to the west line of St. Antoine street to the south line of Baldwin place and Napoleon street.

Accepted and adopted.

#### TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of William A. Green to be refunded a tax on

personal property, respectfully report that we have considered the matter, and recommend that his prayer be denied, for the reason that it was impossible for the Assessors to know who owned the household furniture which they found at 112 Winder street, occupied by the petitioner. He failed to examine the assessment rolls or to notify the Assessors, or the Board of Review, that the property in said house belonged to the boarders. His plea of ignorance of the law is no excuse. He cannot take advantage of his own neglect. The property was there and was equitably assessed. It being in his house was prima facie evidence that it belonged to him, and he testified that a portion of it did, and if it did not, it was his duty to notify the Assessors to the contrary.

Respectfully submitted,  
**REYMOUR FINNEY,  
 GEO. F. REICHENBACH,  
 JAMES TIERNEY.**

Accepted and adopted.

#### FROM THE SAME.

To the Honorable the Common Council.  
 Gentlemen—Your Committee on Taxes, to whom was referred the petition of Henry Roe to be refunded an alleged erroneous assessment, respectfully report that from the evidence presented it appears that the business of the petitioner was formerly carried on under the name of Hayes & Roe, which firm ceased to exist some two years ago, but the business has been and is continued by the petitioner at the same place formerly occupied by the old firm. As Mr. Roe has not been assessed for the capital employed in the business, in any other assessment, and as all property is entitled to pay taxes, we consider that no injustice is done him by treating the not unnatural mistake of Hayes & Roe for Henry Roe, as an assessment against the latter; and further, as he did not examine the assessment rolls, as was his privilege, he can not take advantage of his own neglect. We recommend that his prayer be denied.

Respectfully submitted,  
**REYMOUR FINNEY,  
 GEO. F. REICHENBACH,  
 JAMES TIERNEY.**

Accepted and adopted.

#### FROM THE SAME.

To the Honorable the Common Council.  
 Gentlemen—Your Committee on Taxes, to whom was referred the petition of M. C. Martin & Co., to be refunded a certain tax paid twice on the same property, respectfully report that it was shown to your committee that the petitioners were assessed on their stock of goods at No. 18 West Fort street on a valuation of \$3,000, which tax they have paid. After that assessment was levied they removed to 29 Michigan avenue, where the assessors found a portion of the stock which had already been assessed on West Fort street. It is clear that a portion of the same property has been assessed twice. We therefore recommend that they be refunded the sum of \$7.44, and herewith present the proper resolution.

Respectfully submitted,  
**REYMOUR FINNEY,  
 GEO. F. REICHENBACH,  
 JAMES TIERNEY.**

Accepted, and on leave the following was offered:

By Ald. Finney.

Resolved, That the City Controller be, and he is hereby authorized and directed to draw his warrant on the proper fund, in favor of M. C. Martin & Co. for \$7.44 upon presentation and delivery of the receipt showing that they have paid an assessment for that amount on personal property for the year 1887.

Adopted as follows:

Yea—Ald. Amos, Bleser, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, Holihan, Jacob, Karrar, Kellogg, Lally, Leander, McGuire, McIntyre, Marz, Meier,

O'Regan, Peterkin, Pfeifer, Reichenbach, Reeves, Smith, Tierney, Trombly, Uthes and the President—23.

Nays—None.

#### FROM THE SAME—MAJORITY REPORT.

To the Honorable the Common Council.  
 Gentlemen—The Committee on Taxes, to whom was referred the petition of Jos. J. Dederich to be refunded the interest on parts 2, 3 and 4 of a paving assessment paid by him, respectfully report that we have carefully considered the matter and find that when he paid part one of said assessment he paid the interest on the other three parts; that five days afterwards he elected to pay the principal of parts 2, 3 and 4, which he was not obliged to do by law, but which he did do of his own free will and accord. It was his option and privilege to wait until said parts matured. The law gives parties assessed for paving thirty days in which to pay part one and the interest on the balance, or to pay the entire assessment in cash without any interest. The law also requires the bonds to be issued as soon as the thirty days have expired, which we understand was done in this case. As the legislature of the state, who enacted the law, is sovereign to the common council, your committee do not consider themselves authorized to recommend any action antagonistic to the law. We therefore recommend that his prayer be denied.

Respectfully submitted,  
**REYMOUR FINNEY,  
 JAMES TIERNEY.**

Accepted.

#### FROM THE SAME—MINORITY REPORT.

To the Honorable the Common Council.  
 Gentlemen—Your Committee on Taxes, to whom was referred the petition of Joseph J. Dederich to be refunded the interest on parts 2, 3 and 4 of a paving assessment paid by him, respectfully report that we have carefully considered the matter, and recommend that he be refunded such a sum as would equal the amount of interest that the city will realize on the money paid by the petitioner, representing parts 2, 3 and 4. While the letter of the law may be construed against this course, we submit that simple justice and equity entitles him to recover what the city will receive as interest on the money he has paid in, for he has paid in the interest on the bonds issued and the city draws interest on the money besides.

Respectfully submitted,  
**GEO. F. REICHENBACH.**

Accepted, and on leave the following was offered:

By Ald. Reichenbach.

Resolved, That the City Controller be, and he is hereby authorized to draw his warrant on the proper fund in favor of Jos. J. Dederich for \$37.10 on presentation and delivery of the receipt showing that he has paid the interest on parts 2, 3 and 4 of his paving assessment for paving on St. Aubin avenue in the year 1887, the same being the amount of interest that the city will realize on the money paid in by him representing parts 2, 3 and 4.

Ald. Finney moved the adoption of the majority report.  
 Ald. Reichenbach moved the adoption of the minority report. The roll being called on the motion of Ald. Reichenbach and being objected to was laid over under the rules.

#### STREET OPENINGS.

To the Honorable the Common Council.  
 Gentlemen—Your Committee on Street Openings, to whom was referred the petition of Frederick Wilkie for the approval of a replat of lot number 98 of Braddish & Hubbard's subdivision of part of the Loranger farm, respectfully report that they have examined the same and find that such a replat would not, in their opinion, be advantageous

to the property, and therefore recommend that the petition be denied.

Respectfully,

WM. O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.,

Adopted.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of Herbert Bowen and Wm. G. Werner for the approval of a plat of land lying westerly of Eighteenth street and between McGraw and Grand River avenues, respectfully report that they have examined the same and find that it differs from the plan of the city in that Humboldt avenue is placed easterly of the location of said street in said plan; that by so locating the street the entire property north of Grand River avenue can be laid out more advantageously for the public, and your committee therefore recommend that the Board of Public Works be authorized to approve such plat.

Respectfully,

WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

By Ald. O'Regan,

Resolved, That the Board of Public Works be and they are hereby authorized to approve Bowen and Werner's subdivision of part of the land lying westerly of Eighteenth street and between McGraw and Grand River avenues, such plat locating Humboldt avenue so that its easterly line will be 225 feet westerly of the westerly line of Eighteenth street.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, H. L. Han, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reyes, Smith, Tierney, Trombly, Uthes and the President—23.  
Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings to whom was referred the petition of John Cooney and others for the opening of an alley between Congress and Champlain streets, Bellevue and Beaufait avenues, respectfully report that we have examined the same and recommend that the petition be granted and the City Attorney be directed to prepare the proper resolution for opening the same.

Respectfully,

WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, Hollahan, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reyes, Smith, Tierney, Trombly, Uthes and the President—23.  
Nays—None.

COMMITTEE ON HEALTH.

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the invitation of J. S. McPetersen, representing the "Rider Garbage Furnace Company" of Pittsburg, Pa., offering to defray the expenses of a committee of the Common Council to visit Pittsburg for the purpose of examining the operation of their furnace with a view of having the same adopted by this city, respectfully report, recommending that the same be declined with thanks.

Respectfully submitted,

FRANK SMITH,  
JOHN MCINTYRE.

Accepted and adopted.

Rule 11. A majority of all the aldermen elected shall be a quorum for the transaction of business, but a smaller number may adjourn from day to day; and upon a call of the Board by any member thereof, if supported by a majority of the members present, whether a quorum or not, the President shall have power to send a Sergeant of Police, or any member of the police force of the city with a written order to bring the absent Aldermen forthwith before said Board of Aldermen.

Rule 20. The previous question shall be put in these words: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be to put an end to all debate, and to bring the Board to a direct vote upon a motion to commit, if such motion shall have been made, and if this motion does not prevail, then upon amendments reported by a committee, if any; then upon pending amendments and then upon the main question.

Rule 21. On the call of any member a division of any question may be made, when the question will admit of a division so distinct that one part being taken away, the other will stand as an entire question for decision.

Provided, That he shall file with the City Clerk within seventy-two hours of that at which the motion to be reconsidered was passed, a notice of his intention to so move to reconsider it, and the same number of votes shall be required to reconsider any action of the Board as was required to pass or adopt the same.

Rule 37. Every ordinance shall receive three several readings in the Board previous to its passage unless otherwise ordered. The first and second readings of ordinances may be by their titles only. On the passage of ordinances the question shall be, "Shall this ordinance pass?" upon which the ayes and noes shall be taken. Respectfully,

WM. B. MORAN,  
Controller.

Accepted and the recommendation concurred in.

#### FROM THE GAS INSPECTOR.

To the Honorable the Common Council.

Gentlemen—I respectfully tender to you my resignation of the office of Gas Inspector of the City of Detroit, to take effect immediately.

I take this opportunity to inform your honorable body that I have attended strictly to the duties of my position in the hope that the salary of the office would be made proportionate to its duties.

The time spent in the performance of the work imposed upon me should have yielded a much larger revenue than \$45 per year, and I trust that the sense of justice of your honorable body will enable it to pay the laborer his just deserts.

Regretting the necessity of severing my connection with the city and your honorable body,

I subscribe myself,

Your obedient servant,

DAVID A. COTTON.

The resignation was accepted as follows:

Yeas—Ald. Amos, Bleaser, Burt, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, Holihan, Karrer, Kellogg, Lally, Lauder, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeifer, Reicheubach, Reschke, Reyes, Smith, Tierney, Trombly, Uthes and the President—28.  
Nays—None.

#### FROM THE FIRE COMMISSION.

To the Honorable the Common Council.

Gentlemen—As the law provides the Fire Commission submits herewith a statement of fees collected for permits issued by the Fire Marshal for the month ending January 31, 1888.

The moneys thus collected have been paid into the city treasury as the law directs.

By direction of the board.

JAMES E. TRYON,

Secretary.

Accepted and referred to Committee on Ways and Means.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Fire Commission begs to acknowledge the receipt of a copy of a resolution adopted by your honorable body at its last session requesting the Commission to cause fire alarms to be rung on the engine house bells as was done prior to the first day of July last.

The ancient custom of ringing bells for alarms of fire was continued in Detroit long after all the large cities abandoned it for the reason that we maintained a force of call firemen, who worked at their trades and responded to alarms in their respective districts. At the time this practice was given up the department became composed entirely of men who gave their whole time to the business.

The ringing of alarms on the engine house bells attracts large crowds of people to the scene of the fire who impede the firemen in their work and are frequently injured by falling walls. In order that the alarm may be rung properly on the bell the apparatus is

compelled to remain in its quarters at least a minute after the number of the box has been received by telegraph, causing a delay that might prove fatal to life or property, or both. The growth of the city requires the constant increase in the number of boxes so that it is impossible to put out a card that will be complete more than a few weeks. Under the present admirable working of the police patrol system a wagon and squad of patrolmen respond to every alarm and property is not only protected from thieves but the owners of buildings on fire or endangered are promptly notified. The Merchants' and Manufacturers' exchange, representing the greatest interests in Detroit, have petitioned the commission to discontinue the practice of bell ringing for fires. The newspaper press, which to a great extent reflects public sentiment on such questions as this one, is practically unanimous against the revival of this custom.

The commission feels that a return to the practice of ringing the bells for fire alarms would be a positive detriment to the department for the reasons stated. The bell in the city hall tower, which can be heard from one end of the town to the other, is struck for every alarm. During the month of January there were forty-five alarms of fire in this city and the record for the current month shows the same ratio. To ring these alarms on all the bells would involve an almost ceaseless clanging.

The Commission feels that your honorable body did not realize the number of legitimate objections to returning to this practice when the resolution was under consideration. If the bells should be rung in the face of the objections given above it would involve the expense of keeping a day bell-ringer in each house.

By direction of the Board,

JAMES E. TRYON,

Secretary.

Accepted and placed on file.

Ald. Trombly moved that the vote by which the resolution was adopted be reconsidered, which motion prevailed.

Ald. Trombly moved to indefinitely postpone the resolution, which motion did not prevail, as follows:

Yeas—Ald. Amos, Fairbairn, Finney, Gilmore, Griggs, Hayes, Lauder, Peterkin, Trombly and the President—10.

Nays—Ald. Bleaser, Burt, Hartness, Holihan, Karrer, Kellogg, Lally, McGuire, McIntyre, Martz, Meier, O'Regan, Pfeifer, Reicheubach, Reschke, Reyes, Smith, Tierney and Uthes—18.

Ald. Reschke moved that the resolution to ring the fire alarm bells be adopted, which motion prevailed.

#### FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petitions, to wit:

Of A. B. Wheller and others, for lateral sewer in alley bounded by Chene, Dubois, Frederick and Kirby streets.

Of F. Stein and others, for a lateral sewer in block bounded by Frederick, Farnsworth and Chene streets; and

Of Charles Schultz and others, for lateral sewer in alley in block bounded by Chene, Grandy, Kirby and Frederick streets.

Respectfully recommend, on sanitary grounds, that the prayer of the several petitioners be granted.

It is estimated the sewers will cost about eighty cents per lineal foot.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and Ald. Martz offered the following:

Resolved, by the Common Council of the City of Detroit, That it is deemed necessary

to construct brick lateral sewers in the following alleys and streets, to-wit:

In the alley between Chene street and Grandy avenue and Kirby and Frederick streets.

In the alley west of Chene street, between Frederick and Farnsworth streets.

In the alley between Chene and Dubois streets and Frederick and Kirby streets.

And it is hereby declared that this action is had under sections 42 and 43, of chapter 7, title 1, of the Charter of 1883, authorizing the Common Council to direct and regulate the construction of lateral sewers or drains for the purpose of more effectually draining all lots or cellars, yards and sinks, within the limits of said city, whenever in their opinion the same shall be necessary.

Resolved, That for the purposes of assessment for defraying and paying the cost of said brick lateral sewers respectively, the lots and parcels of real estate embraced within the limits of each alley and abutting thereon, through which said lateral sewers are ordered to be constructed, shall be and the same are hereby constituted and declared to be one local assessment district for each lateral sewer so constructed.

Resolved, That the City Engineer be and he is hereby ordered and directed to make an assessment on the lots and parcels of real estate within the limits of each lateral sewer respectively, according to the benefit said lots and parcels of real estate shall receive from said improvements.

Resolved, That the Board of Public Works shall and is hereby ordered to advertise five days for proposals for constructing said lateral sewers.

Adopted as follows:

**Yeas**—Ald. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, Hollihan, Karrer, Kellogg, Lally, Lauder, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—29.

**Nays**—None.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—The Board of Public Works and City Engineer, to whom was referred the petition of Anthony Grosefield and others, for the widening of Michigan avenue, between Wabash avenue and the terminus of the pavement, respectfully report that Michigan avenue at this point is 61 feet wide, of which 40 feet is now paved, leaving 13 feet from the curb on each side to the lot line. After widening the roadway it will leave 10 feet on each side of the street for sidewalk purposes. On this avenue there are two railway tracks, thereby rendering the same, at times almost impassable for traffic. In the opinion of the board public convenience requires the widening of this roadway, and recommend that the prayer of the petitioners be granted; and to that end the Board of Public Works be directed to inclose in their annual estimates for the street opening fund the sum of \$6,100 to defray the expense of widening said avenue.

Respectfully submitted,

W. H. LANGLEY,

President.

H. D. LUDDEN,

City Engineer.

Accepted and the recommendation concurred in as follows:

**Yeas**—Ald. Amos, Bleser, Burt, Fairbairn, Finney, Gilmore, Griggs, Hartness, Hayes, Hollihan, Karrer, Kellogg, Lally, Lauder, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschke, Reves, Smith, Tierney, Trombly, Uthes and the President—29.

**Nays**—None.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—The Board of Public Works,

to whom was referred the claim of Michael Fitzsimmons for overtime in watching the steam road roller at night, amounting to \$18.75, respectfully report that the petitioner was employed to watch the machine at night, and was, without manifesting any objections thereto, paid each week in full for his services as night watchman. If as night watchman he devoted more time than required by custom as a day's work, he done so without authority and of his own accord and is not entitled to pay therefor. The board therefore herewith return the claim to your honorable body and respectfully recommend that it be rejected.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and adopted.

**FROM THE CLERK.**

To the Honorable the Common Council.

Gentlemen—At a session of your honorable body held on Jan. 10 I was directed to have a resolution of thanks to the Hon. John J. Mulhern, the late presiding officer, suitably engrossed. I her leave to state in compliance with instructions the same is fully completed and would suggest that a committee be appointed to present the same.

Respectfully,

A. G. KRONBERG,

City Clerk.

Accepted.

The chair appointed as such committee Ald. Amos, Gilmore and Lauder.

**FROM THE SAME.**

That he presented the proceeding of the last session of the council, held on the 14th of February, to his honor the Mayor for approval on the 17th and that they were approved on the 21st.

Accepted and placed on file.

That Joseph Doherty, Constable of the Fifteenth Ward, has filed his official bond.

Accepted and referred to Committee on Ways and Means.

**COMMUNICATIONS.**

CHICAGO, Feb. 7, 1888.

To the Honorable the Board of Aldermen of the city of Detroit, Mich.

Gentlemen—For some time past we have had our attention called to the occasional complaints in the press of your city to the effect that the two passenger elevators we furnished in your City Hall were not at times in the good condition they should be, and that the expense of keeping them in running order was excessive. We have several times sent an inspector to critically examine the machines, and found good cause for the complaints, as unquestionably they had not received proper attention, and as a result unnecessary and exorbitant bills of repairs had been incurred.

Now, we would unequivocally say to your honorable board that under ordinary circumstances, and with judicious handling and attention, both of these elevators should always be in perfect running order when needed, and the expense of maintenance should not be one-quarter what the bills have aggregated the past year.

On Sept. 15 last we examined the machines and placed them in first-class condition. Yet, even since then we are informed that bills of expense have been incurred on them.

This we cannot comprehend, but with your permission and assistance we will go to the bottom of the trouble, and are confident we can recommend a plan that will keep the elevators always in order, avoid the stoppages that have so often occurred from trifling and unnecessary causes, give the public that continuous service that they expect and are entitled to, and save you these large bills that the Board of Public Works have been compelled to audit.

Right here permit us to say, that while the

elevators, through some unknown cause, have occasioned you annoyance and expense, their absolute safety has never been questioned. Is it not singular that among seventy-five elevators we have running in your city, those in your City Hall should be the only ones to cause trouble? Such being the case, we know we can correct all troubles and make everything satisfactory, which we desire to do, as often shown in the past by our sending our inspectors from here without charge.

May we ask a reference of this matter to the proper committee, so that we may come from Chicago to Detroit, meet the gentlemen, present our views, and have the causes of the complaints removed?

Awaiting your consideration, and such action as your wisdom may dictate, we remain,  
Your obedient servants,

W. E. HALE & CO.

Accepted and referred to Committee on Public Buildings.

##### FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the petition of Ann Larned to be allowed the sum of \$2,800, and claiming that amount to be the sum awarded her by the jury, in the matter of widening Jefferson avenue, respectfully report that we have given the subject very careful consideration, and find that the verdict of the jury awarded the petitioner \$2,400 for herself and \$400 were allowed her lessees. Your committee know of no reason why the verdict of the jury should be disturbed, even though the Common Council had the power, which it has not. We therefore recommend that prayer of the petitioner be denied.

Respectfully submitted,

JAMES HOLIHAN,

SEYMOUR FINNEY,

FERDINAND AMOS.

Accepted and adopted.

##### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Claims and Accounts, to whom was referred the petition of Jane M. Palmer to be paid the amount of a city bond and interest thereon, respectfully report that we have carefully considered the matter and find the City of Detroit issued certain Public Building Fund bonds on Jan. 1, 1886, payable Jan. 1, 1896, bearing interest at 7 per cent per annum, with coupons attached payable semi-annually; that thirteen of these coupons were presented and paid at maturity, leaving twenty-seven coupons unpaid; that the late John Palmer owned bond No. 140, for \$500; that said bond was stolen from the vault of David Preston & Co., bankers, on or about the 20th of November, 1872; that the amount of the unpaid coupons is \$472.50. The petitioner offers to give the City a satisfactory bond of indemnity to secure it against any loss by reason of the future presentation of said bond for payment. We therefore recommend that the prayer of the petitioner be granted and herewith present the proper resolution.

Respectfully submitted,

JAMES HOLIHAN,

SEYMOUR FINNEY,

FERDINAND AMOS.

Accepted and on leave the following was offered:

By Ald. Holihan:

Resolved, That the City Controller be, and he is hereby authorized and directed to draw his warrant for \$500 on the Detroit City Sinking Fund and for \$472.50 on the Interest Fund in favor of Jane M. To the Honorable the Common Council.

Gentlemen—Your Committee on Sewers, to whom was referred the petition of J. E. Scripps and G. H. Scripps for relief from

the payment of a sewer tax on lots 92, 93 and 94, of Lafferty farm, on Mulberry street, respectfully report that they have examined the same, and find that a lateral sewer was constructed in the alley in the rear of the lots and that the owners of these lots were not notified of the proposed improvement; that at that time these lots were drained by a private drain in Mulberry street for a portion of which your petitioners paid. Such being the facts, your committee believe that such lots were not benefited by the lateral sewer in the alley and should not be assessed therefor. Your committee therefore recommend that the Controller be directed to draw his warrant on the proper fund in favor of J. E. Scripps and G. H. Scripps for \$36.81, upon their presenting and surrendering to him the proper receipt showing that they have paid the Receiver of Taxes such amount in payment of the above mentioned tax.

Respectfully,

JOHN P. MARTZ,  
JAMES TIERNEY,  
JACOB F. MEIER.

Accepted and the following resolution was offered:

TAXES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of J. E. and G. H. Scripps to be refunded a tax on a lateral sewer, respectfully report the same back to your honorable body, with the recommendation that it be referred to the Committee on Sewers to whom it properly belongs.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Luke Crossley, to have the order for the sale of certain property for a sidewalk assessment set aside or postponed, respectfully report that said land was sold before the petition came to your committee, so we can only recommend that his prayer be denied. We took a large amount of testimony in this case, which showed a great lack of intelligence and an amount of neglect of official duty on the part of the Board of Public Works, or their employees, which, in our judgment, calls for severe reproof and immediate correction. (Contracts between individuals mean what they say literally, and we know of no reason why a contractor with the city should not be held up to the letter, as well as the spirit of his contract. The contract in this case called for planks 12 inches wide on 4 by 4 inch stringers, with 3 thirty-penny nails in each end and 2 in the middle. It was shown that 6 inch plank were used and only 2 nails in each end and 1 in the middle and part of these were twenty-penny nails instead of thirty penny, and the contractor testified under oath that he did not think he would notice the difference in the size of the nails when driving them. We recommend that the Board of Public Works be directed to instruct their sidewalk inspectors to measure the nails used in the construction of all sidewalks, and to compel the use of the size called for in the contract, and in future to hold all contract-

ors up to a rigid compliance with the plans and specifications of the contract.

As the Board of Public Works has accepted of the sidewalk in question, and has certified its construction to be in accordance with the terms of the contract to the Common Council, who have authorized the assessment rolls to be made out and directed the Receiver of Taxes to collect the same, we do not see how the Common Council can give the petitioner any relief.

Respectfully submitted,

REYMOUR FINNEY,  
GEO. F. REICHENBACH,  
JAMES TIERNEY.

Accepted and adopted.

#### SPECIAL COMMITTEE.

To the Honorable the Common Council.

Gentlemen—Your Special Committee, appointed to "investigate and report on the amount of work done by Building Inspector Harris and the Building Inspectors and to make such recommendation as they may deem proper as to ordering his removal or the discontinuance of the office," respectfully report that we have examined into the workings of the Board and particularly into the work performed by Mr. Harris, a member thereof.

Mr. Harris went into office in July, 1887. Soon after assuming his official duties, at a meeting of the Board, a division of the work was made in which the care and inspection of the elevators, freight and passenger, was allotted to him. We find by examination of the several inspectors under oath that to do this branch of the business properly requires the full time of one man at least; that

Mr. Harris inspected since July last between 170 and 180 different elevators in the city; that between forty and fifty of these, operated chiefly in hot-els, large retail stores and public buildings, do about 75 per cent of the elevator service in the city, hence requiring closer, and more frequent inspection; that some of the latter class were inspected seven or eight times each and others more than once, and that public safety required the exercise of greater watchfulness of that class of elevators.

Your committee find that the rules and regulations of the Board, adopted under the provisions of the act creating the Board and for the purpose of carrying into effect its objects, were not fully complied with by Mr. Harris; that he failed to attend the daily meetings of the Board and failed to submit regular reports of his work. While admitting this neglect he explained that his assignment

was to out door work which frequently called him away at such hours as to prevent his attendance.

Your committee are of opinion from the investigation made by them that, while Mr. Harris may have been negligent in some minor matters relating to his official duties, he has not been wilfully negligent; that he has rendered fair service to the city since he became a member of the board and is a competent man for the place. We recommend that no action be taken by the Common Council with a view to his removal.

Your committee further believe that the services of a Board of Building Inspectors are much needed; that the nature of their powers and duties are secondary in importance to no other board or commission of the city, and that a proper exercise of their duties adds an additional guaranty to the safety of life and property within the city. The records of the department have been well kept by the Secretary and President, who attended before the committee and aided in the investigation.

The purpose of the act establishing the Board is a beneficial one, and no action should be taken to impair their usefulness.

Respectfully,

JAMES HOLIHAN,  
JAMES B. LAUDER,  
J. P. GILMORE.

Accepted and adopted.

#### UNFINISHED BUSINESS.

On motion of Ald. Griggs a report from the Committee on Health and a resolution laid over Feb. 21 relative to proposals for removing and burning garbage during the ensuing year was taken from the table.

Leave being granted Ald. Griggs offered the following amendment:

Resolved, That the instructions to the Controller to advertise for proposals for the removing and burning of garbage are hereby amended, so that in calling for bids the Controller shall in addition to calling for bids as specified in the original resolution call for bids as follows:

First. The contractor to state the price at which the furnace or furnaces will be sold to the city, or to whosoever the city may direct at the expiration of the contract.

Second. The contractor to state the price at which the furnace or furnaces and wagons will be sold to the city, or to whosoever the city may direct at the expiration of the contract.

Third. To call for bids for furnishing the city with such a number of garbage furnaces as they may require, the same to be placed in such positions as the city may direct.

Fourth. To call for bids for collecting the garbage within: First, the one mile circuit. Second, between the one and two mile circle. Third, between the two and three mile circle; and fourth, all outside of the three mile circle, all west of Woodward avenue; and also similar bids for similar sections of the circle east of Woodward avenue. The contractors in these cases to be allowed to divide the territory in such a manner that the collections shall be made on alternate days from those specified in sections three and four of the original resolution, or on the same days.

In specifying the bonds which are to accompany the bids for the above named services, the Controller shall specify such part of \$100,000 as he considers the work in question is proportionate to the entire work called for by the original resolution.

on Claims and Accounts.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I have been served with an  
injunction and subpoena in the suit of Wm.  
N. Dixon et al. vs. the City of Detroit in the  
matter of the Myrtle street pavement. I  
recommend that the suit be referred to the  
City Counselor with instructions to defend  
the interests of the city.

Respectfully,

WM. B. MORAN,  
Controller.

Accepted and concurred in as follows:

Yeas—Ald. Ames, Bleaser, Burt, Fairbairn,  
Gilmore, Griggs, Guiney, Hartness, Hayes,  
Hollman, Jacob, Karrer, Kellogg, Lander,  
McGuire, Martz, Meier, O'Hagan, Peterkin,  
Pfeifer, Reichenbach, Resnick, Reeves,  
Smith, Tierney, Trombly, Uthes and the  
President—23.

Nays—None.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to  
whom was referred the following resolution,  
to wit:

By Ald. Hartness.

Resolved, That the Board of Public Works  
be and are hereby directed to examine Grandy  
avenue between Gratiot avenue to Ferry  
street, with the view of paving the same with  
cedar block and cobble stone pavement, and  
if in the opinion of said board the paving of  
said avenue is a public necessity then said  
board report to this council the proper resolu-  
tion for paving the same under the charter  
act authorizing the Common Council to pave  
streets to cost not exceeding \$100,000 without  
a petition signed by a majority of the lot  
owners thereon.

Respectfully report that there is a fire en-  
gine house at the corner of Grandy and  
Gratiot avenues, and in case of fire on Grandy  
avenue, or any of the streets north of Gratiot  
avenue, running east and west, it would be  
difficult for the department to reach the same  
in proper time, and the delay incident thereto  
might be the cause of a great damage. For  
self-protection this avenue should un-  
doubtedly be paved, and as a desirable im-  
provement for public convenience the Board  
of Public Works so recommend. To that end  
these resolutions are herewith transmitted,  
each of which the board respectfully suggest  
be considered separately.

It is estimated that the whole cost of the  
pavement will amount to about \$1.65 per  
square yard.

Respectfully submitted,

WM. H. LANGLEY,  
President.

Laid on the table.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—As directed by your honorable  
body the Board of Public Works executed  
and herewith transmit for approval and con-  
firmation in contracts with Louis Lemke for

line of Moran street to Mr. Elliott avenue;  
and

With Messrs. Ryan & Bourke, for furnish-

#### FROM THE SAME.

To the Honorable the Common Council.

Craig and others for the paving of Baltimore avenue from Woodward avenue to Brush street with cedar block and cobblestone pavement, respectfully report that the petitioners for this improvement represent the owners of two-thirds of the lots fronting on the avenue. The street at certain parts of the season is almost impassable, and for the convenience of the residents thereon the paving of the same is considered a necessity. The Board therefore recommend that the prayer of the petitioners be granted, and to that end herewith transmit through the chairman of the Committee on Streets the proper resolution therefor.

It is estimated that the pavement will cost about \$1.65 per square yard.

Respectfully submitted,

W. H. LANGLEY,  
President.

Laid on the table.

B. GUINEY,  
J. P. MARTZ,

By Ald. Guiney.

#### FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Public Buildings, to whom was referred the resolution of Ald. Gilmore in relation to enlarged quarters for the Police Court, and the letter of the Health Officer, setting forth the unsanitary condition of the present court, respectfully report that we have made a thorough investigation into the matter, and find the present building entirely inadequate to the business of the court; and, strong as the Health Officer has described the terribly un-

healthy and dangerous condition of the premises from a sanitary point of view, we are satisfied that he has not overstated the facts, but that the disgrace and danger are greater than he has pictured them. It is proper for us to inform you that we called upon the County Auditors to learn what arrangements could be made for a lease of the necessary ground on which to erect a new Police Court building. They told us that they could not recommend a lease of any portion of the premises, as they considered that a new jail was an imperative necessity, and that to build such a jail as the needs of Wayne County demanded would require every foot of ground now owned by the county at the present location. We think the Police Court should be contiguous to the jail for reasons that must be apparent to every one who gives the matter intelligent consideration. The subject of a site for a new building is not before your committee, so we make no suggestions; but we recommend that the City Controller be directed to place in his estimate the sum of \$25,000 for the erection of a new Police Court building.

Respectfully submitted,  
B. GUINEY,  
J. P. MARTZ,  
THOS. FAIRBAIRN.

Accepted and adopted as follows:  
Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollahan, Jacob, Karrer, Kellogg, Lander, McGuire, Martz, Meier, O'Regan, Peterkin, Pfeifer, Reichenbach, Reschke, Reyes, Smith, Tierney, Trombly, Uthes and the President—25.  
Nays—None.

To the Honorable the Common Council.  
Gentlemen—Your Committee of Public Buildings, to whom was referred the resolution of Ald. Tierney in relation to finishing the fourth floor of the City Hall for offices, respectfully report that we have been furnished by Mr. James Anderson, the architect of the building, with an estimate of the cost of making the proposed changes, which will cost about twenty-eight thousand dollars. Also an estimate of the cost of adding another story, with a new roof, which amounts to one hundred thousand dollars. Also an estimate in relation to constructing coal vaults, oil tanks and boiler rooms outside of the City Hall, under the sidewalks and grounds adjoining the building, which will cost about twelve thousand dollars. We also beg leave to report that the estimate for raising the City Hall five feet and walling it in is about one hundred thousand dollars.

Respectfully submitted,  
B. GUINEY,  
J. P. MARTZ,  
THOS. FAIRBAIRN.

#### STREET OPENINGS.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Street Openings, to whom was referred the petition of John C. Canavan for the approval of a plat of lots 212 to 216 of Johnson's subdivision of the Campan farm, respectfully report that they have examined the same and find that it does not effect any of the streets or alleys, and is merely for the purpose of making lots of suitable size for selling. Your committee, therefore, recommend that the Board of Public Works be authorized to approve such plat.

Respectfully,  
WILLIAM O'REGAN,  
BERNARD AMOS,  
JAMES HARTNESS, JR.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of James B. Goodrich and others for the approval of a replat, respectfully report that they have examined the matter and find that the property is situated on the Thompson farm, at the southeast corner of Putnam and Twelfth streets; that a portion is now platted into lots 70 feet deep, fronting Putnam avenue, and that the purpose is to replat the rear so as to make lots 170 feet deep; that for this purpose it is necessary to vacate an alley 10 feet wide, running back 70 feet from Putnam avenue. Your committee believe that such replat would greatly improve the property, and as your petitioners are the only persons interested in the property, recommend that the petition be granted.

Respectfully

WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Accepted, and the following resolution was offered:

By Ald. O'Regan.

Resolved, That the Board of Public Works be and they are hereby authorized to approve Wesson's replat of the property on the southeast corner of Putnam avenue and Twelfth street, being part of lot 19, Thompson farm so as to front six lots 170.33 feet deep on Putnam avenue; and further,

#### COMMITTEE ON ORDINANCES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the petition of Michael McCall and others for a change in the ordinance regulating porters and runners, respectfully report that they have carefully examined the matter and find that the chief objection on the part of your petitioners to the present ordinance is that it gives a slight advantage to the hotels nearest the depots. Your committee are of the opinion that an advantage given by location is a natural advantage and should not be changed by ordinance, especially as the various hotels that are now situated at the greatest distance from the depots are unanimously in favor of making no change in the present ordinance. Your committee also finds that the general good order at the depots has been much upset since the adoption of the present ordinance, and your committee therefore believe it would be unwise to make any change

therein, and therefore recommend that the petition be denied.

Respectfully,

D. C. KELLOGG,  
MIKE MCGUIRE,  
ERNEST L. RESCHKE,

Accepted and adopted.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the petition of Robert Holke for permission to display fireworks, respectfully report that they have examined the same, and as the Mayor has the power under the ordinances to grant such permission under certain conditions, your committee recommend that the matter be referred to the Mayor.

Respectfully,

D. C. KELLOGG,  
MIKE MCGUIRE,  
ERNEST L. RESCHKE,

Accepted and adopted.

OFFICE OF THE  
BOARD OF HEALTH,  
DETROIT, Feb. 20, 1888.

The Hon. Wm. B. Moran, City Controller.

DEAR SIR—Inclosed please find estimates for needed expenditures of the Health Department for the next fiscal year.

In the additions of territory in Springwells and Hamtramck we have an increase in the neighborhood of 20,000 capita, and our expenses for disinfections, etc., are increased. The (\$500) five hundred appropriation for physicians is not to be a stated salary, but a fund upon which to draw at the rate of three dollars per visit when it shall be necessary to send a physician to the City Hospital. The five hundred for expert drain inspection and expert or veterinary inspection of diseased cattle is asked for, in order that we may have a fund from which to pay any such inspections as become necessary. At present there seems to have been no provision made for examining diseased cattle. Last summer I was compelled during the Texas fever attack among our own domestic milk cows to employ Dr. Murray, and the Meat Inspectors were compelled in several cases to call on Dr. Cruyton. These bills remain unpaid because of no appropriation for such services, and will have to go before the auditors.

You will also notice we take into this fund: The salary of Engineer of City Hospital, The transportation of Milk Inspector, The rent of Laboratory, Room 2, Market building.

The physician to City Hospital, explained above.

As regards the expense of the City Hospital for coal and patients' nursing it is impossible to make any definite calculations as to the disease. Varioloid or small-pox is so irregular in its manifestations in this city. We would recommend that this matter be left as before, viz.: to be drawn from the contingent fund.

The above is respectfully submitted.

SAMUEL P. DUFFIELD, M. D.,  
Health Officer.

To the Honorable the Board of Aldermen.

Gentlemen—As the law provides, the Fire Commission submits herewith its estimate of moneys requisite for the proper maintenance of the Fire department and the enlargement of the force to meet the requirements of the growth of the city and the needs of the citizens during the fiscal year ending June 30, 1889.

To meet the ordinary operating expenses, including the repair and extension of the telegraph and water supply systems and the purchase of new apparatus to replace worn-out and condemned equipment the sum of \$248,145.89 is necessary.

The appropriation made a year ago for placing underground the wires of the fire and police departments in the half-mile circle, so-called, was insufficient, and to complete that important work and provide for the fulfillment of contracts already made there will be required \$12,743.63.

The people living in the annexed districts are without adequate fire protection, and such protection as they now get is given at the expense of other sections of the city, which are for the time being left uncovered. The number of fires is increasing each year, and the commission feels it would be poor economy to attempt to put off extensions which are demanded now. It is proposed to place in service one additional engine and two hook and ladder companies, for which \$68,969.63 is estimated as the probable cost.

The entire estimates are submitted herewith in detail.

Respectfully submitted,

JEROME CROUL,  
PETER HENKEL,  
W. J. STAPLETON,  
E. W. GILLET,  
Commissioners.

JAMES E. TRYON,

The amount required for this fund is \$75,000.

#### PUBLIC LIBRARY FUND.

The amended Board of Education act approved March 11, 1881, provides for a special library tax of one-fifth of one mill on the dollar of property assessed for city purposes for the Public Library fund which for the fiscal year of 1883 will amount to \$23,481.57.

#### BOARD OF EDUCATION.

#### OFFICE OF THE BOARD OF EDUCATION OF THE CITY OF DETROIT.

March 1, 1888.

To the Honorable the Common Council.

Gentlemen—We hereby certify that the number of persons in the city between 5 and 20 years of age is sixty-six thousand nine hundred and sixty-three (66,963).

The Board of Education requires for the maintenance of the public schools during the ensuing fiscal year the sum of three hun-

dred forty-two thousand four hundred nine dollars and seventy-six cents (\$42,409.76).

This amount is seven thousand five hundred ninety-four dollars and seventy-six cents (\$7,594.76) in excess of the per capita tax allowed by law.

The Board of Education requests your honorable body to appropriate the additional sum of one hundred eight thousand sixty-eight dollars and eighty-eight cents (108,068.88) for the purchase of lots and the erection of buildings, with the necessary furniture, fixtures, etc.

This amount could be increased very readily, and good reasons for so doing advanced in support of it, but the Board of Education are disposed to be conservative on the question of increasing the tax levy to the limit which the requirements for school purposes would dictate, hence the amount this year will be seen to be thirty-eight thousand four hundred twenty-two dollars and twelve cents (\$38,422.12) under the annual allowance for the year ending July 1, 1888. In order to properly maintain the public schools it will be next to impossible to keep within the limit of the amount allowed by law, because of the fact that the current expenses are increasing from year to year in the same ratio as school rooms are being added.

The estimated expenses for the several purposes named are in detail as follows:

#### BUILDING FUND.

##### New Buildings.

For moving Clay school to Boulevard school district.....	\$3,500
For building site.....	1,900
	<u>\$ 5,900</u>
For new eight-room school to take the place of Clay school.....	25,000 00
For moving Field avenue school to vicinity of Mack road.....	700
For site.....	2,400
	<u>3,100 00</u>
For ungraded and manual training school and equipment.....	60,000 00
For amount necessary to complete buildings now in course of erection.....	14,688 88
Total.....	<u>\$108,068 88</u>

#### SCHOOL FUND.

##### Finance.

For salary of Superintendent.....	\$4,000 00
For salary of Secretary.....	2,500 00
For salary of Supervisor.....	1,900 00
For taking census.....	1,800 00

## FROM THE CITY ATTORNEY.

To the Honorable the Common Council.

Gentlemen—I have this day received from George W. Hatford, Esq., of Detroit, a communication relative to a certain tract of land deeded by him to the city for boulevard purposes, in which attention is called to the conditions contained in the deed of said land whereby it may revert to him.

I suggest that the communication be referred to the Boulevard Commissioners.

Respectfully,

WM. S. SHEERAN,  
City Attorney.

Accepted and concurred in.

## FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—On the second day of March the supreme court of this state filed opinions in six cases for the opening of various streets in this city. The court, while not holding the local act under which said cases were tried unconstitutional, said that certain provisions therein

were unlawful and should be disregarded. These provisions were very important to the city and the disregarding of them will greatly increase the amount that the city will have to pay in order to open streets.

The court strongly intimate that it would be better for the city to proceed to open streets under the general law of 1883, rather than under its special act.

In view of these decisions I would recommend that your honorable body instruct a committee to examine into all cases that have been ordered to be opened, but have not yet been tried, with a view of ascertaining what cases it would be advisable to proceed with and to determine whether to proceed under the special act for this city or the general law of 1883.

Respectfully,  
WM. S. SHEERAN,  
City Attorney.

Accepted and referred to Committee on Judiciary.

**FROM THE CITY TREASURER.**

I have filed with the clerk of the Recorder's Court certificates showing the disposition of awards in the rolls mentioned.

Very respectfully,  
J. S. SCHMIDTDEL,  
City Treasurer.

Accepted and placed on file.

**FROM THE CLERK OF THE RECORDER'S COURT.**

To the Honorable the Common Council,

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the following resolution, to-wit:

By Ald. Trombly.

Resolved, That the Board of Public Works be and are hereby directed to examine Chene street between Gratiot avenue to Fremont street with the view of paving the same with cedar block and cobblestone pavement, and if in the opinion of said board the paving of said avenue is a public necessity then said board report to this council the proper resolution for paving the same under the charter act authorizing the Common Council to pave streets to cost not exceeding \$100,000 without a petition signed by a majority of the lot owners thereof.

Respectfully report that at the last session of the Common Council the Board recommended, as a public necessity, the paving of Grandy avenue, from Gratiot avenue to Ferry street. Chene street is but one block west of Grandy avenue, and should Grandy avenue be paved there would be no public necessity for paving Chene street. Also, it is the opinion of the Board that before Chene street is paved Fremont should be paved, so as to afford a paved on let. The Board therefore report that there exists no public necessity for paving Chene street as contemplated by the foregoing resolution.

W. H. LANGLEY,  
President.

Laid on the table.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works respectfully inform your honorable body that the Edison Electric and Bell Telephone companies are straining wires over streets and alleys within the corporate limits of the city. In like cases, by the Brush Company, the Board of Public Works undertook to prevent said company from straining their wires, but the Circuit Court having enjoined the board from interfering with the company in extending its wires was, under penalty of the law in such cases, compelled to desist. As this is a matter of doubtful procedure on the part of the companies, the board respectfully request that it be referred to the City Counselor to advise the Common Council the proper course to pursue in the premises.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and the recommendation concurred in.

#### FROM THE SAME.

To the Honorable the Common Council:

Gentlemen—The Board of Public Works, to whom was referred the following preamble and resolution, to-wit:

By Ald. McGuire.

Whereas, Vacant lot No. 48 on the southwest

corner of Grandy avenue and Scott street was an outlet for the surface water which has been closed up by dumping earth, etc., on the same, causing the water to remain there and stagnate and also to run under the house next door; therefore

Resolved, That the Board of Public Works be and they are hereby directed to have the former outlet opened so that the surface water can be disposed of.

Respectfully report that the outlet mentioned is on private property and the drain from the premises being stopped prevents the water from draining off, hence the stagnant water on the premises. The Board, believing that this is a matter of individual responsibility and not for the city to provide against, recommend that the resolution be not adopted.

Respectfully submitted,  
W. H. LANGLEY,  
President.

Accepted and placed on file.

To the Honorable the Common Council.  
Gentlemen—At the last session of the Common Council the following resolution was adopted:  
By Ald. Griggs.

Resolved, That the Board of Public Works are requested to inform this body what action, if any, they have taken in the matter of calling to account the Sidewalk Inspector through whose negligence Mr. Crossley was compelled to present to this body a petition asking to have the sale of his property postponed or set aside on account of non-payment of sidewalk assessment.

In this matter the Board of Public Works examined the sidewalk and found that, although not strictly in accordance with the contract, it is a better sidewalk than therein required, and with due deference to the action had by the committee thereon, the Board can see no just cause for complaint on the part of Mr. Crossley. As regards the difference in the width of the plank it is conceded by all who have knowledge of such work that a six-inch plank affords a much better walk than a twelve-inch plank walk. This being a settled fact, and the sidewalk being an improvement on the contract, the Board deemed it unnecessary to inflict any punishment on the Sidewalk Inspector therefore except to instruct him hereafter to accept no walks unless they are constructed strictly in accordance with the contract therefor.

Respectfully submitted,  
W. H. LANGLEY,  
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—The Board of Public Works, to whom was referred the petition of Stephen Moore and others for widening the roadway in Fort street, from Fifth street to the old city limits, respectfully report that the paved roadway is now 42 feet wide, and to comply with the prayer of the petitioners in widening the same 22 feet, it will cost, in addition to repaving the present roadway, about \$33,000. In preparing the estimates for the current expenses of the coming fiscal year no provision was made for an improvement of this magnitude, and should it be authorized it would necessitate the adding thereto by the Common Council an amount sufficient to meet the expense.

The majority of the petitioners are owners of lots west of the old city limits, and before proceeding in the widening of the roadway in this street the lot owners within the district, and who paid for the original pavement, should be afforded an opportunity to be heard, and inasmuch as the taxes for the coming year will necessarily be excessive, it is the opinion of the Board the urgency of this improvement is not such as to warrant

the adding of an additional amount thereto. The Board therefore respectfully recommend that the prayer of the petitioners be denied. Respectfully submitted,

WM. H. LANGLEY,  
President.

Referred to the Committee on Streets.

FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—The Board of Public Works, to whom was referred the petition of W. H. Brearley for paving Charlotte avenue between Third and Fifth streets, respectfully report that it is evident, from the fact that this petition is signed by but one person, and is the owner of a small portion of the lands subject to assessment for the cost of the improvement, the remaining lot owners are not desirous of paving the avenue. There is no doubt but it would improve the appearance of this street to pave the same, and add to the convenience of the lot owners; but, there being no apparent public necessity therefor, the Board is disinclined to recommend the same under the \$10,000 act, and recommend that the prayer of the petitioner be denied. Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and placed on file.

FROM THE CLERK.

That he presented the proceedings of the last session of the Council, held on the 28th of February, to His Honor the Mayor for approval on the 2d of March, and that they were approved on the 6th of March, 1893.

Accepted and placed on file.  
That John E. Sauers has filed his official bond as Gas Inspector.

Accepted and referred to the Committee on Ways and Means.

FROM THE SAME.

#### PUBLIC BUILDINGS.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Public Buildings to whom was referred the communication of W. E. Hale & Co. of Chicago in relation to the City Hall elevators, respectfully report that Mr. C. Vallette Kasson, of Chicago, representing the elevator company, appeared before us and explained why, in the judgment of his company, there has been so much expense incurred in the operation of the elevators. To the Honorable the Common Council.  
Gentlemen—Your Committee on Taxes, to whom was referred the petition of A. E. F. Horn & Son, in April, 1897; that the stock was assessed January 21, 1897, at \$500 to the old firm; that the petitioners did not notify the Board of Assessors of the change of ownership, nor did they take any steps toward having the assessment reduced. They cannot take advantage of their own neglect. We recommend that their prayer be denied.

#### COMMITTEE ON STREET OPENINGS.

To the Honorable the Common Council.  
Gentlemen—Your Committee on Street Openings, to whom was referred the resolution approving Bowen & Werner's subdivision of part of the land lying west of Eighteenth street and between Grand River and McGraw avenues, respectfully report that they have again carefully examined the same and have altered the same by requiring a small triangle formerly reserved for private uses to be given to the public. The adjoining property owners appeared before your committee and find that such plan will be greatly for their benefit as well as for the public at large, and are desirous of having the same approved. Your committee therefore recommend that the Board of Public Works be authorized to

approve the same with the change above noted.

Respectfully,  
WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Accepted and leave being granted the following resolution was offered:

#### COMMITTEE ON MARKETS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Markets, to whom was referred that portion of the Mayor's message relative to the removal of the central market, has the honor to report.

That after a careful investigation, in which the opinions of a great many representative citizens have been received by letter and otherwise, your committee finds that there is a practical unanimity among disinterested citizens as to the urgent necessity of the removal from Cadillac Square and Camp Martine of the office square situated attending the holding there of a general daily market.

In favor of continuing the present arrangement there were few found aside from the persons directly interested as tenants of the Market buildings. These were unanimous and clamorous enough in demanding a continuance of the special privileges they have enjoyed for so many years; but it would be hardly just to consider these interested demands as outweighing the almost equally unanimous desire of the general public that what they have come to regard as a nuisance should be abated. It is not necessary for your committee to enlarge upon this feature, which have made the Central Market an offensive nuisance to the great majority and a blemish upon the most central and conspicuous part of the city. These are sufficiently obvious to all.

There have been various suggestions for remedying the evil:

1. Many demand that the square should be cleared from end to end of all buildings and obstructions from Camp Martine to Randolph street. This is undoubtedly the prevailing sentiment among the people and will manifest itself every year with greater force until it becomes at last irresistible, unless it is at least partially satisfied by some reform.

2. Others, having the same ultimate end in view, would approach it more gradually and at less immediate sacrifice. These suggest that the tenants be cleared out as soon as practicable, that the hucksters and others who obstruct the square be removed, and that the present Market Building be devoted exclusively to the use of City offices, until such time, at least, as the Market building is paid and room for the offices is found elsewhere.

Your committee would recommend the following as the most prudent method of meeting the public demand for improvement, and at the same time doing as little damage as possible to the interests of the city as represented in the Market property:

1. That the use of the entire square and the buildings thereon for market purposes be, in concurrence with the recommendations of his honor, the Mayor, abandoned.

2. That the market building and the building below Bates street be vacated on or before July 1, 1884.

3. That the wagons of hucksters, farmers and gardeners, which now occupy the street, be prohibited therefrom and be allowed instead to use the western hay markets and the clock on the east side bounded by Bronson, Marion and Russell streets, or such places as the council may provide.

4. That the brick building be fitted up and devoted exclusively to city offices, thereby relieving the present overcrowded condition of premises now devoted to such purposes, at a comparatively small expense to taxpayers. Your committee has in mind, in this connection, the removal of the Police Court to this building, which would now result in the immediate saving of \$25,000, also the saving of \$100,000 estimated expense for building an additional story to the City Hall, affording together an opportunity of saving \$125,000.

Respectfully submitted,  
BENJAMIN GUINEY,  
C. K. TROMBLY.

Accepted and on leave the following resolution was offered:

By Ald. Guiney.

Resolved, by the Common Council of the city of Detroit, that the City Controller be and is hereby authorized and directed to rent any and all stalls and stands in the Central Market, for the present rental of such stall or stand, for a period not extending beyond June 30, 1884.

And further resolved that the Controller be and he is hereby directed to take all necessary steps to have said Central Market vacated by all tenants or occupants by July 1, 1884.

FROM THE CITY COUNSELOR.  
To the Honorable the Common Council.  
Gentlemen—The suit of Fanny A. Joslyn

against the City of Detroit, an action for injuries received on account of building material in the street, was recently tried in the circuit court and a verdict rendered of no cause of action.

The plaintiff, however, has notified me that she intends removing the case to the supreme court. I await your instructions in the matter.

Respectfully,

JOHN W. McGRATH,  
City Counselor.

Accepted, and on leave the following resolution was offered:

By Ald. Jacob.

Resolved, That the matter of the appeal of Fanny A. Joslyn from the judgment recently rendered against her in the circuit court, for the county of Wayne, in favor of the City of Detroit, be referred to the City Counselor with instructions to defend the interests of the city in the supreme court.

Gentlemen—I have to report that in the suit of Sarah Wilkes vs. the city of Detroit, in the United States Court, which was tried on the 8th inst., the plaintiff recovered a verdict of \$375.

This action was for injuries caused by a defective sidewalk, and the Committee on Claims and Accounts, at the time of the hearing before that committee, made a proposition to pay the plaintiff the sum of \$350, but plaintiff refused to accept.

I recommend the payment of the judgment.

Respectfully,

JOHN W. McGRATH,  
City Counselor.

Accepted, and leave being granted the following resolution was offered:

By Ald. Jacob.

Resolved, That the Controller be and is hereby directed to draw his warrant upon the contingent fund in favor of Sarah Wilkes for the sum of \$375 in full of the judgment heretofore rendered in favor of said Sarah Wilkes and against the city of Detroit.

#### PUBLIC LIGHTING.

To the Honorable the Common Council.

Gentlemen—Your Committee on Public Lighting, to whom was referred that portion of the City Controller's estimate for the fiscal year 1889 relative to public lighting, respectfully report that we have given a great deal of time and consideration to the subject of lighting the city. We are satisfied that more lights are required to properly light the large area now included in the city limits. We have listened to the requests of all the aldermen who have appeared before us in relation to this important matter, and beg leave to submit herewith a letter from the Brush Electric Light Company and a statement showing the cost of the public lighting as proposed by your committee, and which we ask to have printed in the proceedings. In conclusion, we recommend that the estimate of the Controller for public lighting, to-wit: the sum of \$140,000, be adopted as the estimate for that purpose for the fiscal year 1889.

Hon. F. Amos, Chairman of the Committee of Lighting.

Dear Sir—We have gone carefully over the matter of the displacement of certain pole lights that will be occasioned by the erection of certain towers, as canvassed by your committee yesterday, March 5.

You will, of course, appreciate the fact that we have been to large outlay in locating the present pole lights, each one involving the purchase and erection of wires, poles, posts and fixtures, while the revenue from them has been comparatively small.

We desire, however, to meet you fairly in the matter, and would therefore suggest as follows:

The pole light, Scotten and Canfield, required the erection of some fifteen poles, about one mile and a quarter of wire, besides posts and fixtures, at an outlay of about \$40. We would not be justified in releasing this post for less than \$2.00. We suggest, however, that as the post will stand about midway between the two towers which you suggest erecting on Buchanan and Canfield streets, which towers will be half a mile apart that this pole light had better remain where it is during the contract, or until it may be found desirable by reason of rapid development in that section to locate another tower where the above investment can be utilized.

We will change the pole from Fort and Military to Morrill and Fort or Junction and Fort for \$5.

If towers are placed at Vinewood and Railroad, Kirby and Lincoln, McDonald and Fremont, Jefferson and Concord, Gratiot and Mt. Elliott we will displace the poles at each of these points without charge.

So also if a tower is placed at Fort and Mt. Elliott we will displace the pole at Mt. Elliott and Champlain without charge.

If a tower is placed at Arndt and McDonald, our outlay for locating lamps at Charlevoix and McDonald, Charlevoix and Joseph Camryn, Berlin and Joseph Camryn will be lost to us, and if we displace these lights we gain but one light on a tower. For this change we will charge \$300.

If a tower is placed at Clifford and Elizabeth we would suggest leaving the pole at Park and High, and permit this tower to displace only the two lights at Columbia and Clifford and at Park and Montcalm. To make this change we will charge \$20.

Or if the tower is located at Clifford and Montcalm we will make the change for the same amount, and could then displace also the light at Park and High. The latter point appears to us rather more feasible than the former, although the aldermen in that ward can judge better as to the requirements of the neighborhood.

If, therefore, the pole is left at Scotten and Canfield and a tower located at Clifford and Montcalm, instead of Clifford and Elizabeth, we displace, as above enumerated, 15 pole

lights and change the location of one for the sum total of \$300.

Considering the outlay that has been made and will be lost to us by the change, and the further fact that by the erection of the towers we lose the revenue from the lights displaced, we trust the figure for readjustment will be regarded as very reasonable.

We would also suggest the advisability of locating a permanent post light on the west side of Woodward avenue, opposite the end of East High street, unless it is deemed that a tower on this same corner is justified.

Respectfully, etc.,

**BRUSH ELECTRIC LIGHT CO.**  
By **W. W. LEGGETT**,  
President.

#### COMMITTEE ON ORDINANCES.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the petition of Dean, Godfrey & Co. and others for the removal of the trucks and express wagons from Griswold street, between Michigan avenue and State street, respectfully report that they have considered the same and believe that said petition should be granted for the reason that said street is too narrow to accommodate the trucks and express wagons, and that the travel and business along said street is obstructed by their standing there.

Your committee therefore recommend that the wagons be removed from said street and that in place thereof they be allowed to stand on Gratiot avenue and Farrar street next to the curb line adjoining the public library, and submit the proper amendment.

Respectfully,

**D. C. KELLOGG,**

**MIKE McGUIRE,**

**ERNEST L. RESCHKE.**

Provided further, That no dray, furniture wagon or express wagon shall be permitted to stand on the streets or places above mentioned, except between the hours of 6 o'clock a. m. and 7 o'clock p. m.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the petition of C. J. Lundy and others for the amendment of ordinance requiring five years' practice to be eligible to the office of out-door City Physician, respectfully report that they have considered the same and find that a large number of the leading physicians of the city are in favor of changing the requirement from five to three years; that in the opinion of your committee the change would be beneficial by increasing the number of persons eligible to the office without detracting from the essential qualifications for such office.

Your committee herewith submit such amendment and recommend its adoption.

Respectfully,

**D. C. KELLOGG,**

**MIKE McGUIRE,**

**ERNEST L. RESCHKE.**

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Ordinances, to whom was referred the petition of Robert Holz, respectfully report that his former petition was merely for permission to display fireworks, while the present one asks that he be employed to display fireworks at the public expense. Your committee are of the opinion that a petition for such purpose should come from the citizens at large, and that there should be a decided public sentiment in favor of such a display before the Common Council should consider the same. Your committee therefore recommend that the petition be denied.

**COMMITTEE ON HEALTH.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the petition of Hanna & Ives and many others, to have abated the nuisance of the smoke and soot from the chimneys of the Christian Herald building, No. 204 Woodward avenue, respectfully report that we have examined into the matter and find that the proprietor has adopted a smoke consuming apparatus so that the objections complained of no longer exist.

Respectfully submitted,

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the petition of Herman Pahnke and eighteen other persons, to have the dumping of foul garbage in Bloody Run stopped, respectfully report that we have considered the same and are informed by the Board of Public Works that the nuisance complained of is all done by private parties, and is a matter to be regulated by the Police Department. We recommend that the petition be referred to the Superintendent of Police by the City Clerk, with the request that he will take the proper steps to put a stop to the outrageous practice.

Respectfully submitted,

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the petitions of G. A. Baupp and 80 others of the village of Ecorse and of the Board of Health of the township of Ecorse protesting and remonstrating against the dumping of garbage from this city at the mouth of the River Rouge, respectfully report that we have carefully considered the matter and recommend that the practice be stopped, and that the Board of Public Works be requested to report to this Council some other place for the disposal of the city's garbage until such time as the city is pre-

pared to dispose of it in some other and less dangerous way.

Respectfully submitted.

LOU BURT.

**FROM THE SAME.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the petition of Geo. Oldenkamp and Joseph Spritsley protesting against the establishment of furnaces in which to burn garbage, etc., respectfully report that we have considered the same and beg leave to inform the petitioners and the Council that it is not proposed to burn either manure or ashes, which are the two substances that the petitioners desire not to have disposed of. It is only contemplated to have burned swill and other offal which, if left in the yards and alleys of the city, will decay and bring disease and death to our citizens. The rights of the farmers and gardeners to gather the manure from the alleys will not be interfered with, nor the use of coal ashes for filling streets and alleys when so desired. The protest of our neighbors of Ecorse, to stop the present method of disposing of the vile accumulations of the city by dumping them into the low lands at the mouth of the Rouge, thereby imperiling the lives and health of the people who live below the city, prompts us to some other means to get rid of the city's filth. We recommend that the prayer of the petitioners be denied.

Respectfully submitted.

**COMMITTEE ON LICENSES.**

To the Honorable the Common Council.

Gentlemen—Your Committee on Licenses, to whom was referred the resolution of Ald. Jacob in relation to licensing certain kinds of business, respectfully report that we believe there are a good many places in the city known as policy shops where lottery tickets are sold against the law of the state and the city ordinances, and to the great demoralization of those who patronize them. We therefore recommend that the Police Department be requested to investigate the various places where lottery tickets are sold and to report the result to the Common Council for such action as they see fit to order.

Gentlemen—Your Committee on Licenses, to whom was referred the petition of Fred Helwig and others, asking that only resident team owners be allowed to work on hauling dirt in the city of Detroit, respectfully report that we have carefully considered the matter and have taken counsel of the City Attorney thereon. We believe these men should be protected from non-resident competition, and beg leave to submit herewith an amendment to the ordinance, which has been prepared by the City Attorney at our request, and the adoption of which we recommend.

Respectfully submitted.

WM. B. MORAN,  
Controller.

Accepted and referred to the Committee on Claims and Accounts.

FROM THE SAME.

To the Honorable the Common Council. Gentlemen—I herewith submit a supple-mental estimate of the Board of Education and recommend that the same be printed in the proceedings and referred to the Com-mittee on Ways and Means.

Respectfully,

WM. B. MORAN,  
Controller.

Referred to the Committee on Ways and Means.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council. Gentlemen—On Friday last I finished the trial of the case of Anthony Schneider against the City in the Circuit Court.

Schneider is the owner of two lots on Thirteenth street, between Howard and Porter, and the suit was for damages by reason of the construction of the bridge at that point over the Michigan Central railroad tracks, and the consequent injury to his property.

Several of these claims have been settled by the city at from \$400 to \$750 each. The jury in this case gave our plaintiff a verdict of \$250. If this case stood alone I should ad-

vice payment of the judgment rather than an appeal.

There are, however, two other cases pending in court and one before the Committee on Claims and Accounts involving precisely the same question. I am of opinion that all of these claims, including the judgment already recovered, can be settled for from \$1,000 to \$1,200.

The question involved here, however, is one that will of necessity come up again whenever another bridge is constructed, and we ought to have a decision of the Supreme Court determining the rights and liabilities of the city in this class of cases.

I recommend, therefore, that the case of Schneider against the city be taken to the Supreme Court.

Very truly,  
JOHN McGRATH,  
City Counselor.

Leave being granted the following resolution was offered.

By Ald. Judd.

Resolved, That the City Counselor be and he is hereby directed to appeal the case of Attorney Schneider against the city of Detroit to the Supreme Court.

Adopted as follows:

Yeas—Ald. Amos, Bleser, Burt, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollman, Jacob, Karrer, Kello, Lally, Lander, McGuire, McIntyre, Marta, Meier, O'Regan, Peterkin, Pfeifer, Reichenbach, Reehke, Reeves, Smith, Tierney, Uthas and the President—29.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The work of this office not only takes nearly all of my time and attention, but I am compelled in the preparation of cases to engage competent professional assistance.

It will occur to you that acting in behalf of the city I have no outlet at my side to look up facts and witnesses; all of this class of work must go undone, to the manifest injury to the city, or I must have a competent assistant to do it.

In addition to this work I have now in hand the preparation for the commencement of several important suits on behalf of the city. These suits alone will occupy one man's time for some months.

Heretofore I have employed, under the direction of the Controller, such assistance as I needed, and in fact for the past four months I have been compelled to have such assistance constantly.

At professional per diem rates this is and will be more expensive to the city than the employment of a regular assistant.

I cannot well see how, in view of the largely increasing business of this department, the employment of additional help can be avoided.

I therefore request the authority to appoint an assistant at such salary as your honorable body shall determine.

Very truly,  
JOHN W. McGRATH,  
City Counselor.

Accepted and referred to the Committee on Ways and Means.

FROM THE CITY TREASURER.

To the Honorable the Common Council.

Gentlemen—In view of the recent decision of the Supreme Court in street opening matters, I respectfully ask that your honorable body instruct the proper committee in conjunction with the City Counselor and City Attorney to consult with this office as to the best disposition of certain rolls now in our hands.

Respectfully,  
J. S. SCHMITTDEL,  
City Treasurer.

Accepted and referred to the City Attorney and City Counselor.

FROM THE BOARD OF HEALTH.

To the Honorable the Common Council.

Gentlemen—In obedience to the requirements of an ordinance concerning the duties of the Board of Health this report for the month of February is made to your honorable body.

Exhibit A, herewith annexed, gives in detail the amount and cause of all expenditures made during the month.

Exhibit B gives the number and causes of death of all persons dying during the month, and places of burial.

Respectfully submitted,  
SAMUEL P. DUFFIELD, M. D.,  
Health Officer.

Referred to the Committee on Ways and Means.

FROM THE BOARD OF PUBLIC WORKS.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the following resolution, to wit:

By Ald. Jacob.

Resolved, That the Board of Public Works be and are hereby directed to examine Watson street, between Brush street and Russell street, with a view of paving the same with cedar block and cobblestone pavement; and if in the opinion of said Board the paving of said street is a public necessity, then said Board report to this Council the proper resolution for paving the same under the charter act authorizing the Common Council to pave streets to cost not exceeding \$100,000 without a petition signed by a majority of the lot owners thereon.

Respectfully report that between Brush and Russell streets there are comparatively few streets paved, and to reach the House of Correction and the large manufacturing establishments on Russell street a public necessity exists for paving Watson street. The Board therefore recommend that Watson street from Brush to Russell street be ordered paved with cedar block and cobblestone pavement under the charter act authorizing the Common Council to order the paving of streets which will cost not to exceed \$100,000 without the petition of a majority of the lot owners therefor.

It is estimated that the whole cost of the pavement will amount to about \$1.65 per square yard, or about \$12,870.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted, and by unanimous consent Ald. Lally offered the following:

Resolved, That Watson street be and the same is hereby ordered to be graded and paved from the east curb line of Brush street to the west curb line of Russell street, and that said street within said limits be paved with cedar block and cobblestone pavement twenty-six feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer; and it is hereby declared that this action is had under that clause of the City Charter authorizing the Common Council to annually enter into contracts for the grading, paving, etc., of streets, alleys and public places, the cost of which will not exceed in the aggregate \$100,000, without the petition of the holders of the larger portion of the real estate directly abutting upon the portions of the street or alley proposed to be improved.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and curbing Watson street from the east curb line of Brush street to the west curb line of Russell street, the lots and parcels of real estate situated on Watson street embraced within said limits and fronting the portion of said street ordered to be improved by said grading, paving, etc., shall be and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and he is hereby ordered and directed to ascertain and report to both the City Assessor and Board of Public Works, according to the form and the ordinances in such case made and provided, the quantities of work and materials required for grading and paving said Watson street within said limits, as follows:

1. The quantity of all grading, paving, curbing and other work on said Watson street within said limits, excepting the portions of said street constituting the intersections of cross-streets and alleys.
2. The quantity of all grading, paving and other work of each portion of said Watson street included and embraced within the lines of intersection of the cross-streets and alleys with said Watson street.
3. The quantity of all crosswalks at each intersection of said Watson street with the cross-streets and alleys.

Resolved, That as soon as the Board shall

receive the report of the City Engineer showing the quantity of the grading, paving, curbing, crosswalks, material and other work required as above provided on said Watson street said Board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving, crosswalks, curbing and materials, and improving said Watson street in accordance with the resolutions and proceedings above provided, and the provisions of the charter and ordinances of the City of Detroit.

Laid on the table.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the following resolution, to-wit:

By Ald. Guiney.

Resolved, That the Board of Public Works be and they are hereby directed to consider the advisability of paving Porter street from Second street to the bridge crossing the Michigan Central railroad tracks twenty-six feet wide with cedar blocks and cobblestone gutters under the provisions of the city charter authorizing the paving of streets to the amount of one hundred thousand dollars without the consent of the owners of property fronting on streets to be paved. And if said Board consider such pavement necessary then that they submit the proper resolution therefor.

Respectfully report that Porter street between Second and Thirteenth streets, if paved, would afford at all seasons of the year a paved outlet to Michigan avenue. As there is considerable traffic on this street, a public necessity exists for paving the same. The Board therefore recommend that it be paved with cedar block and cobblestone pavement under the charter act authorizing the Common Council to order the paving of streets to cost not to exceed \$100,000 without the petition therefor by a majority of lot owners thereon.

It is estimated the whole paving will cost about \$1.65 per square yard, or about \$21,450.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted, and by unanimous consent Ald. Lally offered the following:

Resolved, That Porter street be and the same is hereby ordered to be graded and paved from the west curb line of Second street to the bridge crossing the Michigan Central railroad tracks and that said street within said limits be paved with cedar block and cobblestone pavement 26 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer; and it is hereby declared that this action is had under that clause of the City Charter authorizing the Common Council to annually enter into contracts for the grading, paving, etc., of streets, alleys and public places, the cost of which will not exceed in the aggregate \$100,000 without the petition of the holders of the larger portion of the real estate directly abutting upon the portions of the street or alley proposed to be improved.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and curbing Porter street from the west curb line of Second street to the bridge crossing the Michigan Central railroad track, the lots and parcels of real estate situated on Porter street, embraced within said limits and fronting the portion of said Porter street ordered to be improved by said grading, paving, etc., shall be, and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be, and is hereby ordered and directed to ascertain and report to both the City Assessor and Board of Public Works, according to the

form and the ordinances in such case made and provided, the quantities of work and materials required for grading and paving said Porter street within said limits as follows:

1. The quantity of all grading, paving, curbing and other work on said Porter street within said limits, excepting the portions of said street constituting the intersections of cross-streets and alleys.

2. The quantity of all grading, paving and other work of each portion of said Porter street, included and embraced within the lines of intersection of the cross-streets and alleys with said Porter street.

3. The quantity of all crosswalks at each intersection of said Porter street with the cross-streets and alleys.

Resolved, That as soon as the Board shall receive the report of the City Engineer showing the quantity of the grading, paving, curbing, crosswalks, material and other work required as above provided on said Porter street, said board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving, crosswalks, curbing and materials, and improving said Porter street in accordance with the resolutions and proceedings above provided, and the provisions of the Charter and Ordinances of the City of Detroit.

Laid on the table.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petition of August Kuhn, asking to be exempt from sewer assessment in the alley between Orleans, Dequindre, Antietam and Chestnut streets, respectfully report that the petitioner connected his drains with a public sewer in Orleans street. In permitting connections to be made with public sewers it is with the understanding that such permit will not relieve the party from an assessment should a lateral sewer be constructed in the alley in the rear of his lots nor as good grounds for obstructing the building of the sewer. This board holds that public sewers are for the benefit of the public at large, and to prevent owners of corner lots to avail themselves of said sewers to the injury of their neighbors would be an act of injustice. The board therefore recommend that the prayer of the petitioner be denied.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the following preamble and resolution, to wit:

By Ald. Gilmora.

Whereas, I have a communication from Mr. Hinds, proposing to remove the trees around the new postoffice site and transplant them to the Campus Martius around the City Hall, therefore

Resolved, That the Board of Public Works be and they are hereby directed to investigate Mr. Hinds' proposition, and make a report on the same to the Common Council.

Respectfully report that the United States government owns the abutting lots on Fort street, and by virtue of that fact claim ownership of the roadway to the center of the street, and to undertake to remove the trees in front of the postoffice site without the consent of the proper officers of the government would be trespassing upon the government's domain, and render the board amenable to the law in such cases made and provided. Under these circumstances the board is not desirous of committing the offense, and inasmuch as the trees would die in case they were transplanted, respectfully return the resolution and recommend that no further

steps toward that end be taken in the premises.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the following resolution, to wit:

By Ald. Peterkin.

Resolved, That the Board of Public Works be and are hereby directed to consider the advisability of paving Fort street west from old city limits to Junction avenue with cedar block pavement, with stone gutters, under the provisions of the City Charter authorizing the paving of streets to the amount of \$100,000 without the consent of property-owners, and if the said Board consider such paving advisable then they submit the proper resolution therefor.

Respectfully report that on the line of Fort street Woodmere cemetery is located. In addition thereto there are several large manufacturing establishments located on this street and the streets adjacent. In attending funerals to the cemetery and the requirements of the manufacturing establishments in receiving and delivering merchandise adds materially to the traffic on the street. In addition, for the convenience of the Fire Department, a necessity exists for the paving of the street. Considering this matter in the light of public convenience there is no question as to the necessity for paving the same. The Board, therefore, recommends that instead of paving the same to Junction avenue it be paved to McKinstry avenue with cedar blocks and cobblestone pavement under the charter act authorizing the paving of streets without the petition of a majority of lot owners.

It is estimated that the whole cost of the improvement will amount to about \$20,000.

Respectfully submitted,

THOMAS McGRATH.

President pro tem.

Accepted and by unanimous consent, Ald. Lally offered the following:

Resolved, That Fort street be and the same is hereby ordered to be graded and paved from the west line of Porter farm to the east curb line of McKinstry avenue and that said street within said limits be paved with cedar blocks and cobblestone pavement, 60 feet wide, according to the specifications adopted by the Common Council, and the estimates of the City Engineer; and it is hereby declared that this action is had under that clause of the City Charter authorizing the Common Council to annually enter into contracts for the grading, paving, etc., of streets, alleys and public places, the cost of which will not exceed in the aggregate \$100,000, without the petition of the holders of the larger portion of the real estate directly abutting upon the portions of the street or alley proposed to be improved.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and curbing Fort street from the west curb line of the Porter farm to the east curb line of McKinstry avenue the lots and parcels of real estate situated on Fort street embraced within said limits and fronting the portion of said street ordered to be improved by said grading, paving, etc., shall be, and the same are hereby constituted and declared to be one local assessment district.

Resolved, That the City Engineer be and is hereby ordered and directed to ascertain and report to both the City Assessor and Board of Public Works, according to the form and the ordinances in such case made

and provided, the quantities of work and materials required for grading and paving said Fort street within said limits as follows:

1. The quantity of all grading, paving, curbing and other work on said Fort street within said limits, excepting the portions of said street constituting the intersections of cross-streets and alleys.

2. The quantity of all grading, paving and other work of each portion of said Fort street included and embraced within the lines of intersection of the cross-streets and alleys with said Fort street.

3. The quantity of all crosswalks at each intersection of said Fort street with the cross-streets and alleys.

Resolved, That as soon as the Board shall receive the report of the City Engineer showing the quantity of the grading, paving, curbing, crosswalks, material and other work required as above provided on said Fort street said Board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving, crosswalks, curbing and materials and improving said Fort street in accordance with the resolutions and proceedings above provided, and the provisions of the charter and ordinances of the City of Detroit.

Laid on the table.

#### FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—At the last session of your honorable body the following report of the Committee on Streets was adopted, to-wit:

To the Honorable the Common Council.  
Gentlemen—Your Committee on Streets, to whom was referred the resolution of Ald. Lally in relation to the paving of Grand River avenue, as appears by the journal of this house of Feb. 24, 1893, respectfully report that we have considered the same and recommend the adoption of the resolution.

Respectfully submitted,

J. E. LALLY.

FRANK J. BLESER,

JAMES HAYES.

In examining the records of the Common Council the Board has failed to discover the resolution referred to in the report. In fact, the journal does not show that any such resolution had at any time been submitted to the Common Council. In ordering the paving of streets the proceedings of the Common Council should be regular and as defined by the charter; any departure therefrom would undoubtedly invalidate the assessment to defray the expense of the improvement. The Board therefore respectfully recommend that the vote by which the foregoing report was adopted be rescinded, and after which the report be referred back to the committee with instructions when said committee again report that the proper resolutions be submitted in connection therewith. The Board also recommend that the same proceedings be had in the consideration of the resolution for paving Baltimore avenue.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and placed on file.

#### FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—The Board of Public Works, to whom was referred the following resolution, to-wit:

By Ald. Lader.

Resolved, That the Board of Public Works be and they are hereby directed to examine Cross street between Randolph and John R. streets, and also Center street from Randolph to John R. streets, with a view of paving said streets with cedar blocks and cobblestone pavement, under the provisions of the city charter authorizing the paving of streets to the amount of \$100,000 without the consent of property owners; and if said

Board consider such paving advisable then they shall submit the proper resolution therefor.

Respectfully report that these two streets form a junction between Randolph and John R. streets, and being the only unpaved streets in this locality the Board is of the opinion that it would be for the convenience of the public to have the same paved. It is therefore recommended that both streets be ordered paved with cedar block and cobblestone pavement under the charter act authorizing the Common Council to order paving of streets to cost not exceeding \$100,000 without the petition of a majority of the lot owners therefor.

It is estimated that the whole cost of the work will amount to about \$1.63 per square yard or about \$3,000.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted, and by unanimous consent Ald. Lally offered the following:

Resolved, That Center street be and the same is hereby ordered to be graded and paved from the west curb line of Randolph street to the southeast curb line of John R. street, and that said street within said limits be paved with cedar block and cobblestone pavement 26 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer; and it is hereby declared that this action is had under that clause of the City Charter authorizing the Common Council to annually enter into contracts for the grading, paving, etc., of streets, alleys and public places, the cost of which will not exceed in the aggregate \$1,000 without the petition of the holders of the larger portion of the real estate directly abutting upon the portions of the street or alley proposed to be improved.

Resolved, That for the purpose of assessment for defraying and paying the cost of grading, paving and curbing Center street, from the west curb line of Randolph street to the southeast curb line of John R. street, the lots and parcels of real estate situated on Center street, embraced within said limits and fronting the portion of said street ordered to be improved by said grading, paving, etc., shall be and the same are hereby constituted and declared to be one local assessment district.

Resolved, that the City Engineer be, and is hereby ordered and directed to ascertain and report to both the City Assessor and Board of Public Works according to the form and the ordinances in such case made and provided, the quantities of work and materials required for grading and paving said Center street within said limits as follows:

1. The quantity of all grading, paving, curbing and other work on said Center street within said limits, excepting the portions of said street constituting the intersections of cross-streets and alleys.

2. The quantity of all grading, paving and other work of each portion of said Center street, included and embraced within the lines of intersection of the cross-streets and alleys with said Center street.

3. The quantity of all crosswalks at each intersection of said Center street with the cross-streets and alleys.

Resolved, That as soon as the Board shall receive the report of the City Engineer showing the quantity of the grading, paving, curbing, crosswalks, material and other work required as above provided on said Center street, said Board shall, and is hereby ordered and directed to advertise for five days for proposals for grading, paving, crosswalks, curbing and materials, and improving said Center street in accordance with the resolutions and proceedings above provided, and the provisions of the charter and ordinances of the City of Detroit.

Accepted and by unanimous consent, Ald. Lally offered the following:

Resolved, That Cross street be and the same is hereby ordered to be graded and paved from the east curb line of John R. street to the west curb line of Randolph street, and that said street within said limits be paved with cedar block and a cobblestone pavement 28 feet wide, according to the specifications adopted by the Common Council and the estimates of the City Engineer; and it is hereby declared that this action is had under that clause of the city charter authorizing the Common Council to annually enter into contracts for the grading, paving, etc., of streets, alleys and public places, the cost of which will not exceed in the aggregate \$100,000, without the petition of the holders of the larger portion of the real estate directly abutting upon the portions of the street or alley proposed to be improved.

#### FROM THE SAME.

To the Honorable the Common Council.  
Gentlemen—I would respectfully call the attention of your honorable body to the following facts:

Sidewalk roll 7740 was confirmed by the Common Council Sept. 13, 1887, and advertised by this office for collection Oct. 20th, 1887.

Oct. 25 J. Connor petitions against the confirmation of the roll. Nov. 15th committee reports that the roll be not confirmed. Feb. 15th committee again reports the roll be not confirmed. And whereas no reconsideration of the original confirmation was ever had by your honorable body the roll is still in my hands for collection and sale. I would respectfully ask your honorable body to take some definite action in the matter.

Respectfully submitted,

SIMON C. KARRER,

Receiver of Taxes.

Accepted and referred to the Committee on Streets.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The undersigned would respectfully ask of your honorable body to submit the present street paving ordinance to the Committee on Ordinances and City Attorney for revision, or of making such changes as might prove beneficial to the city and some relief to the taxpayer.

In view of the fact that there a great many streets to be paved this season, and that this would be the proper time to make any changes to the ordinance if such are to be made at all, I would respectfully ask your early consideration of the ordinance.

SIMON C. KARRER,

Receiver of Taxes.

Accepted and referred to the Committee on Ordinances.

#### FROM THE HEALTH COMMISSION.

To the Honorable the Common Council.

Gentlemen—I have endorsed the petition for a sewer up Campan street to Fort street west as a sanitary necessity.

This office has been in receipt of complaints against Knaggs creek and the neighboring tributary ditches since 1885, and I herewith transmit to your honorable body one order to abate issued by the former Health Officer, Dr. O. W. Wright, and a report from the Sanitary Boardman as regards its condition last July. The reason for asking for a sewer up Campan street is that it would drain all these ditches and the two acres of ground. Knaggs creek backs up on account of being used wrongly for drainage, as it was considered the natural drainage of the country. There is at least a mile square which is in a condition that is badly needing sanitary improvement. I am well aware since the accession of this new section to the city there are greater demands on the Board of Public Works, and am in hopes the honorable Board of Public Works may find some way of solving the problem of draining into some adjacent sewer or by a direct sewer from Campan to Fort street west. This would cost the city expenditure for this year, but it is then done and you have relieved sickness and disease in this section.

Please return to me the complaints herewith enclosed, Nos. 2124 and 5238, as soon as your committee are through with them, as they are from our files.

Very respectfully submitted,

SAMUEL P. DUFFIELD, M. D.,

Health Officer.

Accepted and referred to the Committee on Sewers.

#### FROM THE CITY ENGINEER.

To the Honorable the Common Council.

Gentlemen—I have the honor to report the completion of the house numbering books of the Eastern and Western districts, comprising the entire city, and request that the proper measures be taken to make them effective.

Very respectfully,

H. D. LUDDEN,

City Engineer.

Accepted and referred to the Committee on Streets.

#### FROM THE SAME.

To the Honorable the Common Council.

Smith, for the removal of obstructions in certain alleys, respectfully report that in the rear of lot 41, block 4, north side of Kirby street, Guoin farm, there is a shed which extends into the alley about three feet, and should be removed to the line of the lot. The board therefore recommend that the prayer of the petitioner be granted, and the proper notice therefore be ordered to issue.

Respectfully submitted,

W. H. LANGLEY,

President.

Accepted and adopted as follows:

Of John B. Whelan, for a lateral sewer in an alley, rear of the south side of Boulevard, east of Hastings street.

In the alley between Russell and Riopelle streets and Willis avenue and Superior street, respectfully recommend as a sanitary measure that the prayers of the several petitioners be granted.

It is estimated that the sewers will cost about eighty cents per lineal foot.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and Ald. Martz offered the following:

Resolved, by the Common Council of the City of Detroit, That it is deemed necessary to construct brick lateral sewers in the following alleys and streets, to-wit: In Trombly street from the alley between Russell and Orleans streets.

In the alley between Mack street and Pulford avenue and Bellevue and Beaufait avenues.

In the alley between Putnam and Merrick avenues and the east line of Lognon farm.

In the alley south of the Boulevard, east of Hastings street.

In the alley between Russell and Riopelle streets and Superior street and Willis avenue.

And it is hereby declared that this action is had under sections 42 and 43, of chapter 7, title 1, of the Charter of 1893, authorizing the Common Council to direct and regulate the construction of lateral sewers or drains for the purpose of more effectually draining all lots or cellars, yards and sinks, within the limits of said city, whenever in their opinion the same shall be necessary.

Resolved, That for the purposes of assessment for defraying and paying the cost of said brick lateral sewers respectively, the lots and parcels of real estate embraced within the limits of each alley and abutting thereon, through which said lateral sewers are ordered to be constructed, shall be, and the same are hereby constituted and declared to be one local assessment district for each lateral sewer so constructed.

Resolved, That the City Engineer be and is hereby ordered and directed to make an assessment on the lots and parcels of real estate within the limits of each lateral sewer respectively, according to the benefit said lots and parcels of real estate shall receive from said improvements.

Resolved, That the Board of Public Works shall and is hereby ordered to advertise five days for proposals for constructing said lateral sewers.

Nays—None.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The Board of Public Works, to whom was referred the petition of F. L. Albertain and a number of property owners for the paving of Warren avenue with cedar block and cobble stone pavement, respectfully report that the petition asks for paving Warren avenue from Cass avenue to Twelfth street except where already paved. To com-

ply with the terms of the petition it would necessitate the forming of two assessment districts, an intervening portion of the street having already been paved. In that portion of the street between Cass avenue and Third street there is not a lot owner represented on the petition, and should an attempt be made to pave said district under a representation that a majority of the lot owners had petitioned therefor legal objections would be made thereto, and the assessment to defray the expense of the same would undoubtedly be resisted, thus resulting in loss both to the city and contractors. It is true that the petition represents a majority of lot owners for the whole improvement, but the lots represented being remote from the district between Cass and Third avenues does not, in the opinion of the board, avail; consequently, the petition as presented to your honorable body cannot legally be complied with. This is the opinion of the board in the matter, but inasmuch as there is a diversity of opinion as regards the law in such cases the board respectfully recommend that the question of doubt be referred to the City Counselor for his legal opinion thereon.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and referred to the City Counselor.

##### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Ways and Means, to whom was referred certain portions of the City Controller's estimates for the fiscal year 1888, as hereinafter set forth, respectfully report that we have given all the different subjects very careful consideration, and recommend that the amounts set forth in this report be adopted as the estimates for the various funds for the fiscal year 1888. The interest fund \$32,095 we recommend be adopted.

The General Fund, \$185,548.15, we recommend that changes be made in the estimates as follows, viz.: For City Counselor's salary an addition of \$500. For additional Assistant Boiler Inspector \$1,000. To provide for payment of one Market Bond and interest \$1,400. To provide for the loss of estimated revenue from Central Market \$2,000. Making a total addition of \$12,900. We recommend that the estimate of \$25,000 for the erection of a Police Court building be stricken out, making a net reduction of \$11,100, and leaving a net total to be provided for the General Fund of \$174,448.15.

The Board of Public Works General Fund, \$48,000, we recommend a reduction of \$3,000 from the item, \$19,300 for salaries, making it \$17,300, and leaving a net amount to be provided for this fund of \$46,000. The Belle Isle Bridge Fund, \$85,000, we recommend be adopted, provision for which is made in a resolution accompanying this report.

The Poor Fund, \$37,500, we recommend a reduction by striking out the item for rent of offices, \$300, leaving a net amount to be provided for this fund of \$37,200.

The Police Fund, \$306,470, we recommend a reduction of \$500 in the item of salary of secretary, etc., \$2,500 to \$2,000; also a reduction of \$4,000 in the item for lot, new station and barn in Western District of \$8,000 to \$4,000. (We offset this reduction in a resolution accompanying this report, directing the controller to place the proceeds of the sale of the station house on West Woodbridge street, near Twenty-fourth street, to the credit of the Police Department when it shall be disposed of), the total reduction being \$4,500, leaving a net amount of \$301,970 to be provided for this fund. The supplemental estimate of \$5,000 for police patrol service on Belle Isle we recommend stricken out.

The Water Commission fund, \$75,000, and the Public Lighting fund, \$28,481.57, are mandatory, and we recommend that they be adopted.

The Board of Education fund. Amount asked for under the per capita tax of \$5 for each child between the ages of 5 and 20, say \$8,988, \$342,409.97. This is an excess of \$7,594.78 over the actual amount of the per capita tax. We recommend that the sum of \$854,815 be adopted as the net amount for this item, which is a full compliance with the requirements of the law.

The Building fund for the Board of Education. Your committee beg leave to inform your honorable body that the Board of Education asked leave to withdraw their first estimate and brought in a substitute asking for \$151,230, to which must be added the sum of \$48,068.83, making a total of \$199,298.83. We recommend that the following items be stricken out, viz:

For manual training school—	
For building.....	\$ 23,000 00
For building site.....	25,000 00
For contingencies.....	6,600 00
For Janitor.....	1,200 00

Total.....	\$ 55,800 00
For site for new High School.....	50,000 00

Grand total.....\$ 199,298.83  
which leaves a net amount to be raised for this purpose \$68,458.83, which added to the per capita makes \$428,288.83 to be raised by taxation for school purposes.

The Fire Department retired and pension fund \$600.00 we recommend that that sum be adopted as the estimate for that fund.

Your committee further recommend that the sum of \$174,448.15, being the amount of the estimate for the General Fund, be taken from the Contingent Fund, at the close of the present fiscal, out of the monies received from liquor licenses.

The following is a summary of the various

amounts recommended by your committee for the several funds referred to them, viz:

RECAPITULATION.	
Detroit sinking fund.....	Nothing.
The interest fund.....	\$3,095 00

#### FROM THE CITY COUNCILOR.

To the Honorable the Common Council.  
Gentlemen—I have, under the resolution  
adopted by your body on Feb. 28 last, ex-  
amined the list furnished by the Board of  
Assessors of property exempted from taxa-  
tion.

The general tax law of 1895 exempts from  
taxation: The personal property of all  
library, benevolent, charitable and scientific  
institutions incorporated under the laws of  
this state, and such real estate as shall be  
occupied by them for the purposes for which  
they were incorporated;

All houses of public worship, with the  
and on which they stand, the furniture  
therein, and all rights in the pews, and also  
any parsonage owned by any religious society  
of this state and occupied as such.

The law further provides that the property  
of corporations paying specific taxes shall be  
exempt as to the property covered by such  
taxation, except when otherwise provided by  
law. All other property of such corporations  
shall be taxed under this act.

Thespecial charter granted to the Michigan  
Central Railroad Company provides that it

shall pay an annual tax of three-fourths of  
1 per cent upon its capital stock paid in, in-  
cluding the \$2,000,000 of purchase money paid  
to the state and also upon all loans made to  
said Company for the purpose of constructing  
said railroad, etc., and the property and  
effects of said Company, whether real, per-  
sonal or mixed, shall in consideration thereof  
be exempt from all and every other tax,  
charge and exaction by virtue of any laws of  
this state now or hereafter to be in force.

The special charters under which the Mich-  
igan Southern Railroad Company and the  
Detroit, Grand Haven & Milwaukee Railroad  
Company operate contain like provisions.

All other railroad companies entering the  
city are subject to the general railroad law  
which provides for taxation upon the basis  
of gross receipts, and that such taxes shall be  
in line of all other taxes upon the property of  
such companies, except such real estate as is  
owned and can be conveyed by such corpora-  
tions and not actually occupied in the exer-  
cise of its franchises and not necessary or in  
use in the proper operation of its road. The  
provision of law relating to the taxation of  
union depot companies are similar to those  
for the taxation of railroad companies under  
the general railroad law.

The list sent me embraces three car loop  
companies which by statute pay a specific  
tax upon gross receipts from rental of cars  
and are exempted from taxes upon such cars  
as are rented.

The statutes further provide that any be-  
nevolent society or order, incorporated under  
the laws of this state, owning, occupying or  
controlling any temple, hall or other property,  
such property shall be subject to taxation the  
same as other property, provided that any  
hall occupied by such corporation for their  
own use exclusively shall be exempt from  
taxation.

It is under these statutory provisions that  
exemptions are claimed and allowed.

The railroad companies which exist by vir-  
tue of special charters are taxed not upon  
gross receipts, but upon capital stock. Al-  
though the law provides that "the property  
and effects" of such companies shall be ex-  
empt from all and every other tax, I do not  
believe that it was the intention of the leg-  
islature to exempt from taxation any property  
held by such companies, which is not ac-  
tually occupied by said companies in the ex-  
ercise of their franchises, and which is not  
necessary or in use in the proper operation of  
their roads.

As to all such properties as is not actually  
occupied by such companies in the exercise  
of their franchises, and which is not neces-  
sary or in use in the operation of their roads,  
I should say that it was subject to taxation,  
even though the property of these roads oper-  
ating under special charters.

The lists sent me do not indicate whether  
or not they include such property as is not  
in use by these companies, but I am informed  
that the descriptions embrace a number of  
parcels of such property.

Again, I am advised that the descriptions  
sent to me include a number of parcels of  
valuable property owned by railroad or union  
depot companies which are subject to the  
provisions of the general railroad law and  
other similar statutes, which property is not  
in actual use by such companies.

The large belt of property lying south and  
abutting on Woodward street is instance.  
The exemption does not extend to all prop-  
erty that adjoins railroad tracks, or the or-  
dinary right of way, and such of said prop-  
erty as is not in use by the railroad company,  
is liable to taxation and should be placed  
upon the rolls.

The list sent me embraces exempted prop-  
erty of assessed valuation of \$12,941,410,  
owned as follows:

1. By Railroad and Union Depot  
Companies.....\$2,893,000

2. By Church Societies.....	3,281,450
3. By Car Loan Companies.....	1,500,000
4. By Hospital and "Home" Associations.....	580,187
5. By Schools and Colleges.....	450,420
6. By Y. M. C. Association.....	128,500
7. Exempted by reason of poverty...	5,280
8. All other exempted property.....	47,600

My attention has been called to schools which are mere private enterprises, not in any sense public or parochial. Where the proprietor of the school is the tenant of the owner of the land and buildings, in such cases the owner of the building is not entitled to exemption.

Again, I am asked whether a building, a portion of which is used for the purposes of public worship and a portion is rented for mercantile and other purposes, is entitled to exemption.

The course that is pursued in the case of the Mariners' church should be adopted in all such cases. In that case the ground floor is used for mercantile purposes and the upper floor for church purposes and three-fifths of the assessed valuation is exempted and two-fifths assessed.

The task of making proper and avoiding improper exemptions is by no means an easy one. The importance of the subject is increased in view of the fact that taxing officers have no authority to make exemptions unless expressly empowered by legislature, and to make unauthorized exemptions would render invalid the whole tax roll on which the exempted property ought to have appeared.

The courts have said that "there is nothing poetical about tax laws. Whenever they find property they claim a contribution for its protection, without any special respect to the owner or occupant."

Very truly,

JOHN W. McGRATH,  
City Counselor.

Accepted and placed on file.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—In response to the inquiry of the Board of Public Works respecting the petition of F. L. Albertson and others relating to the paving of Warren avenue, I beg leave to say:

The case is substantially the same as though the paving of the entire portion of Warren avenue between Case avenue and Twelfth street was asked for, and none of the owners between Case and Third avenues were represented on the petition.

The residents of a street ought to have the right to ask, not only for a pavement in front of their own premises, but of that portion of the street leading to its outlet, and it seems to me that the law gives them the right.

The formation of two assessment districts may be necessary, but the ordinance clearly provides for more than one such district if the same be necessary.

Respectfully,

JOHN W. McGRATH,  
City Counselor.

Accepted and referred to the Board of Public Works.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I have to report that in the case of John Flater against the City of Detroit and Conrad Fey, in which a verdict was rendered in favor of the city, the plaintiff has taken out a writ of error from the Supreme Court. I await your instructions.

City Counselor.

Accepted and on leave the following resolution was offered:

By Ald. Jacob.

Resolved, That the City Counselor be and he is hereby instructed to appear and defend

the interests of the city in the case of John Flater against the city of Detroit in the Supreme Court.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I have to report that in the case of Christian Morcos against James R. Elliott, in the Circuit Court, for the County of Wayne, which was an action for alleged carelessness of the Fire Department in tearing down the plaintiff's barn during the progress of a fire therein, a verdict was rendered on Monday last for the defendant.

Very truly,

JOHN McGRATH,  
City Counselor.

Accepted and placed on file.

FROM THE CITY ATTORNEY.

To the Honorable the Common Council.

Gentlemen—In compliance with a resolution adopted at your last regular meeting, to wit:

"Resolved, That the City Attorney be requested to report what, if anything, must be done to retain to the city the property deeded for Boulevard purposes," I beg leave to submit the following:

The lands deeded to the city and adjoining townships for Boulevard purposes are contained in about one hundred different instruments of conveyance, now in possession of the Boulevard Commissioners. A majority of these are made upon conditions various in form and as to the limit of time for their performance ranging from one to ten years. The conditions of most of them have been complied with by the commissioners, thereby vesting in the city the lands donated so long as used for Boulevard purposes.

There are some deeds, however, containing conditions, the time for performing which has not expired. In two of these the time will run out in January, 1899, and in order to retain the property it will be necessary to have the Boulevard completed by that time unless the grantors waive their rights. One of the above grantors has already given notice that he will assert his rights and claim title to the land given by him unless the condition is performed.

All conditions annexed to the various deeds, I am informed, have been fulfilled with the exception of the one requiring the establishment and completion of the Boulevard. It will be seen therefore that this must be done during the present year in order that the city may retain all its rights without dispute.

Respectfully,

WM. S. SHEERAN,  
City Attorney.

Accepted and placed on file.

SPECIAL COMMITTEE.

The chair named the following special committee to visit Lansing, as per Ald. Holihan's resolution: Aldermen Holihan, Amos and Reves, with the City Counselor.

#### COMMITTEE ON STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of Jeremiah Connor and Sarah Connor, asking that the alley first east of Crawford street and running from Forest avenue northerly to an alley running parallel with Forest avenue,

respectfully report that they have considered the same and for the reason that the petitioners own all the property abutting on said alley recommend that the petition be granted and submit the proper resolution therefor.

By Ald. O'Regan.

Resolved, That the alley first east of Crawford street and running northerly from Forest avenue to an alley running parallel to said Forest avenue be and the same is hereby vacated as a public alley on condition that said Jeremiah Connor pay to the City Treasurer the amount of paying tax paid by the city in front of said alley on Forest avenue.

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the communication of the City Treasurer relative to certain street opening rolls in his office, respectfully report that we have considered the matter of the Kirby street roll, which street was ordered opened from Cass to Grand River avenues, and find that most of the assessments have been collected by the Treasurer. We find, however, that an injunction has been issued restraining the sale of the property in the taxing district belonging to A. Cass Canfield of New York, who claims to have had no notice of the proceedings. The assessment on this property is \$1,104. Your committee have been informed that the street through the Canfield property will be dedicated, and as the street is a long and important one, that its opening is necessary to afford access to the new public school at the corner of Seventh and Kirby streets, that a new trial would be much more expensive to the city than the loss of the assessment above mentioned, we recommend that the City Treasurer be instructed to proceed with the opening of said street and that he be authorized to pay to the proper persons the award of damages returned by the jury, on condition that the street be dedicated to the city through the property of Mr. Canfield; and further, that the Treasurer be and he is hereby directed to cancel the assessment on the land of said Canfield for opening Kirby street when said street shall be dedicated by him.

Respectfully,

WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Accepted and adopted as follows:

Yeas—Ald. Amos, Bleaser, Burt, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Holihan, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Martz, Meier, O'Regan, Peterkin, Pfeifer, Reichenbach, Reschke, Reeves, Smith, Tierney, Trombly, Uttes and the President—30.

Nays—None.

#### COMMITTEE ON HEALTH.

To the Honorable the Common Council.

Gentlemen—Your Committee on Health, to whom was referred the petition of Dr. F. Pettig and others for the abatement of a nuisance on the River road, existing in the crude oil establishment opposite Ferdinand avenue, respectfully report that the ordinance provides that the parties offended shall bring the matter to the attention of the

City Attorney, who shall proceed to bring action in the Recorder's Court for the abatement of the nuisance. We recommend that the petition be referred to the City Attorney, and that the petitioners lay their grievance before him.

Respectfully submitted,

LOU BURT,  
FRANK SMITH,  
JOHN MCINTYRE.

Accepted and adopted.

#### FROM THE SAME.

Gentlemen—Your Committee on Health, to whom was referred the communication of C. H. Gantha, Jr., City Clerk of Wyandotte, submitting a resolution adopted by the Board of Aldermen of that city protesting against the dumping of the garbage in Detroit at the mouth of the River Rouge, thereby poisoning the water of the river for those who live below the city, respectfully report that this Committee did, on March 18, in a report on a similar protest from the people of Escoria, recommend that the practice of dumping garbage at the Rouge be stopped, and requested the Board of Public Works to report some other place to dump or dispose of the city's garbage until some better and safer way of disposing of it is provided. We recommend that the City Clerk be directed to send a copy of this report to the City Clerk of Wyandotte in reply to his communication.

Respectfully submitted,

LOU BURT,

#### FROM THE CITY COUNSELLOR.

To the Honorable the Common Council,  
Gentlemen—I have to report that on the 4th inst. I was served with a bill of complaint filed by Moses Taggart, attorney-general, at the relation of Hallowell Orsland, John D. Sullivan and David Murphy, against the city of Detroit, praying that the resolution heretofore adopted by your honorable body vacating the Central Market, so called, may be adjudged and declared void and invalid and that the City of Detroit may be perpetually enjoined from abolishing or vacating said Central Market.

Speed, that he intends taking the matter to the Supreme Court.

#### SPECIAL COMMITTEE.

The Chair announced the following Special Committee to consider the assessment rolls, viz:

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—The following resolutions were unanimously adopted at a session of the Board of Estimates held on Friday, April 13, 1888.

By Estimator Hickey.

Resolved, That to Augustus G. Kronberg, secretary of this board, and James H. Kelly, his genial and venerable assistant, both of whom have been official and courteous in the discharge of their duties, we extend thanks; and

Whereas, By the act creating this body the City Clerk is designated as its secretary, thus requiring much extra service from him, while the act is silent regarding compensation. We would therefore recommend to the Board of Aldermen the propriety of allowing a sum not exceeding \$100 to the City Clerk for such services.

Adopted.

By Estimator Merdian:

Resolved, That the Common Council be

requested to recompense the janitor, Henry Naecker, in the sum of ten dollars (\$10) for his services for attending on the sessions of this Board.

Adopted.

By Estimator Damitto.

Resolved, Recognising our grand Boulevard parkway encircling the city over a dozen miles in length (ten-elevenths of which have been acquired by the city without the expenditure of a dollar) as a great public benefit which the city ought to foster and improve, contemporaneously with the improvement of Belle Isle Park, and believing that every dollar expended on the Boulevard by the city is returned four-fold into the treasury by reason of the extraordinary enhancement of real values created thereby, thus directly lightening the burden of the tax-paying mechanic, we recommend that the Board of Aldermen, in their next annual budget, insert therein and send to this body for consideration an estimate more commensurate with the requirements of that great public improvement than the estimate now before us.

Adopted.

**ANTHONY VALENTINE,**

President.

Accepted and placed on file.

##### COMMITTEE ON STREET OPENINGS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Street Openings, to whom was referred the petition

of Jeremiah Connor for the vacation of a portion of Lysander street, respectfully report that they have examined the same and find that your petitioner in platting his land made the street 70 feet wide from Crawford to the alley near Fourth street; that at that time he believed that the property owners in that neighborhood would join in making Lysander street 70 feet wide; that the street has since been laid out 50 feet wide; your Committee are of the opinion that a street of uniform width is better for the general interests, and as there is no desire to make the street a uniform width of 70 feet, they recommend that the petition be granted and the northerly 20 feet vacated.

Respectfully,

WILLIAM O'REGAN,  
FERDINAND AMOS,  
JAMES HARTNESS, JR.

Accepted and on leave the following resolution was offered:

By Ald. O'Regan.

Respectfully,

WILLIAM O'REGAN,  
FERDINAND AMOS,

Gentlemen—Your Committee on Street Openings, to whom was referred the petition of Alexandrine L. Theodore streets, Rivard and Russell streets, respectfully report that they have examined the same, and finding no objection thereto, recommend that the Board of Public Works be authorized to approve the same.

COMMITTEE ON HEALTH.

To the Honorable the Common Council.

Gentlemen—The Committee on Health, to whom was referred the communication from the City Controller submitting proposals for the collecting and burning of garbage in the City of Detroit for the coming fiscal year, would respectfully report that we have examined the same and recommend that the Controller be directed to contract with Alexander L. Patrick for that purpose, he being the lowest bidder therefor.

Respectfully submitted,

FRANK SMITH,  
JOHN MCINTYRE.

By Ald. Frank Smith.

Laid on the table.

SPECIAL COMMITTEE.

To the Honorable the Common Council.

Gentlemen—Your special committee appointed to attend the meeting of the Crossing Board at Lansing, for the purpose of representing the interests of the city in the matter of the proposed line of the M. C. R. E. in the eastern portion of the city, respectfully report that they were present at the meeting of said Board and urged the necessity of making some adequate provisions for proper underground crossings at the various streets; the residents in that part of the city were represented and urged the Board to order an underground crossing at Jefferson avenue; the railroad company, by its Attorney, called the attention of the Board to the expense of making such crossings, arguing that the expense would be too great for the benefits they expected to derive from such line; the Board, after careful deliberation, determined to approve the line, with the condition of an underground crossing at Jefferson avenue.

Your committee are of the opinion that had the interests of the City not been presented to said Board, the map of the proposed line would have been approved without conditions; that the condition of an underground crossing at Jefferson avenue was as great a concession as could be obtained and yet have the proposed line constructed.

All of which is respectfully submitted.

Respectfully,

JAMES HOLLIHAN,  
FRANK N. BEVES,  
FERDINAND AMOS.

Accepted and placed on file.

WM. B. MORAN,  
 Controller.

Accepted and referred to the Committee  
 on Claims and Accounts.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council,  
 Gentlemen—I herewith submit a communication this day received from the Michigan Central Railroad Co. relative to the Fort street bridge.

The proposition made by the company is to build an iron bridge over their tracks on Fort street and perpetually maintain the same, provided that the city agree to keep the sidewalks and planking or pavement in repair.

I have no hesitation in recommending the acceptance of this proposition, and I suggest that the Controller be authorized to enter into an agreement which shall embrace the terms of said proposition, and thus settle this disputed question.

Very truly,

JOHN W. McGRATH,  
 City Counselor.

John W. McGrath, Esq., City Counselor  
 Detroit:

Dear Sir—I have received from you a copy of the petition for the writ of mandamus and order to show cause, in the matter of the Fort street bridge, and in order, as you requested in our conference this morning, to reach an understanding in respect to the matter without resort to litigation, and without bringing up at all the question as to the construction of the bridge at Lafayette street, Detroit, I am authorized to say, that the Michigan Central Railroad Company will, at its own expense, construct a new iron bridge at Fort street, with stone abutments, according to plans and specifications to be prepared by the Chief Engineer of this company and to be approved by the Chief Engineer of the City of Detroit, and will turn the same over to the City of Detroit, complete in all respects, upon the agreement of the city to keep the roadway and sidewalk of such bridge in repair; such new bridge to be of the same width as the present bridge, and about twenty-seven (27) feet longer.

The foregoing proposition, as you will perceive, is in accordance with the terms suggested by you, and I am quite sure, if we had had an earlier conference, the same result might have been brought about some time ago.

Yours truly,

HENRY RUSSEL,  
 General Attorney.

The communication was received and the recommendation was concurred in as follows:

Yeas—Ald. Amos, Bleser, Bart, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Holihan, Jacob, Karrer, Kellough, Lally, Lantier, McGuire, McIntyre, Martz, Meier, O'Regan, Pfeifer, Reichenbach, Reschke, Reyes, Smith, Tierney, Trombly, Uthes and the President—30.  
 Nays—None.

To the Honorable the Common Council.

Gentlemen—At a session of the Common Council on the 17th inst. the following resolution was adopted:

Resolution by Ald. Reichenbach. Resolved, That the Board of Public Works be and they are hereby instructed to grade alley east of Antoine street, between Division and Alfred

streets, to be paid for out of the Road District fund.

Section 13 of chapter 31 of the Revised Ordinance of 1884 provides that the same proceedings be had in grading and paving alleys that is had in grading and paving streets. To grade this alley it would necessitate the outlay of an extraordinary amount of money and establish a precedent; if followed hereafter in like cases, that would deplete the several Road District funds. The Board of Public Works therefore respectfully suggest to your honorable body that if it is the desire of parties in interest to have this alley graded that they proceed as prescribed by the charter and ordinances in such cases, and not have the same done at public expense.

Respectfully submitted,  
W. H. LANGLEY,  
President.

Accepted and placed on file.

#### FROM THE COMMITTEE ON STREETS.

To the Honorable the Common Council.

Gentlemen—Your Committee on Streets, to whom was referred the matter of the purchase of the rights of the Detroit & Howell Plank Road Company within the present limits of the city, respectfully report that they have given the matter their careful attention, and after numerous meetings have received a communication from Sidney D. Miller, as president of the company, stating that the company will release their entire rights within the present city limits for what the company consider to be one-half of its actual value. The president presented the following figures to your committee: That in 1882 an expert examined the company's books with a view of determining the value of the franchise within the city for the 25 years of its prospective existence; the value as then determined was \$23,133.87; about one-fifth of that time has now lapsed, so that on the same figures the present value would be \$18,509.50.

The president of the company stated to the committee that for one-half the last amount, to-wit \$9,254.75, the company would surrender their entire rights within the city.

Your committee also had conferences with a number of the property owners and as a result of all the negotiations your committee would recommend that whenever the property owners deposit with the Controller the sum of \$4,000, that the Controller be authorized to enter into the proper agreement for the purchase of all the rights of the Detroit & Howell Plank Road Company within the city limits for the sum of \$9,254.75. This

leaves the city's net share \$5,264.75. And your committee further recommend that the matter be closed within thirty days from the date of approval of the Mayor, if so approved.

Respectfully submitted,

J. K. LALLY,  
JAMES HAYES,  
FRANK J. BLEESER.

Resolved, That, whenever, within 80 days, the property owners along Grand River avenue shall have deposited with the City Controller the sum of \$4,000, for the purpose of purchasing the rights of the Plank Road Company in said avenue, the Controller be and he is hereby authorized to draw his warrant on the proper fund in favor of the Detroit & Howell Plank Road Company, upon the delivery to said Controller of the proper papers, surrendering absolutely their entire rights within the present city limits: Provided that this proposition be accepted and closed within 80 days.

# COMMUNICATIONS FROM CITY OFFICERS.

## FROM HIS HONOR THE MAYOR.

To the Honorable the Common Council.

Gentlemen—I herewith return to you without my approval the resolution ordering the Controller to contract with A. L. Patrick for collecting and burning the city's garbage during the year ensuing July 1st next for the sum of \$36,350.

I am advised that the specifications under which it is proposed to let this contract do not provide in terms for the collection of garbage from groceries, provision stores, commission houses, fish and meat markets; neither do they provide in terms for the burning of garbage from the above-mentioned sources without cost, even when brought to the furnace at private expense.

The experience of the past and the exigency of the present shows that the principal amount of garbage with which it is necessary to deal comes from the sources mentioned. The kitchen garbage of the city has not so far as I can learn ever been the cause of trouble.

If the health of the city really demands that the garbage shall be burned, I am convinced that further consideration of the subject by your honorable body will result in arriving at a more comprehensive plan than is now proposed in the specifications. I believe it would also show that the work can be performed at a much less cost than is now contemplated.

I would suggest also that in case new specifications are made that the districts be defined by street boundaries instead of by the mile circles. This would seem more practical and more easily understood.

Respectfully,  
JOHN FRIDGEON, JR.,  
Mayor.

Ald. Trombly moved that the communication be received and the resolution be reconsidered, which prevailed as follows:

Yeas—Ald. Bleese, Burt, Fairbairn, Finney, Gilmore, Griggs, Guiney, Hartness, Hayes, Hollman, Jacob, Karrer, Kelloog, Lally, McGuire, McIntyre, Meier, O'Hagan, Peterkin, Pfeifer, Reichenbach, Reschke, Reeves, Trombly, Uthes and the President—28.

Nays—Ald. Lander, Smith, Tierney—3.

Ald. Burt moved that the whole matter be referred to the Committee on Health.

Ald. Trombly moved to amend that the resolution pass notwithstanding the veto of his honor the Mayor.

Ald. Jacob moved to amend to lay the whole matter on the table for one week, which motion prevailed.

To the Honorable the Common Council.

Gentlemen—In the estimates adopted by the Common Council and Board of Estimates provision was made to defray the expense of constructing, with other sewers, an outlet and sewer in Campan street, from the river to a point 1350 feet north, on the north line of the north line of River street. The necessity for an early construction of this outlet and sewer is so urgent that property owners propose to advance the amount necessary to construct the same and await the disposal of the bonds authorized to be issued for this purpose, when the amount so advanced shall be returned, without interest to the parties so advancing the same. Believing this to be a generous offer, and, if accepted, will materially expedite the work, the Board respectfully recommend that authority be vested in said Board, under the foregoing proposition, to advertise five days for proposals for constructing the outlet and sewer.

Respectfully submitted,

W. H. LANGLEY,

President.

Gentlemen—Permit me respectfully to urge upon you the propriety of taking early action in the matter of providing a suitable place for the transaction of the business of the Police Court of the City of Detroit.

Every argument of economy as well as of public spirit urges prompt action in this matter.

Very respectfully,

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—Your Committee on Taxes, to whom was referred the petition of Mrs. Johanna Sullivan for relief from an assessment for building a new sidewalk in front of lot 1 of Johnson's subdivision of private claim 727 and 728, respectfully report that we have given the matter a great deal of consideration and taken a large amount of testimony in the case, from which it appears that some of the material in the sidewalk that was taken up was sound and good, but not all of it; that the Sidewalk Inspector, acting under the authority of the Board of Public Works, considered the sidewalk unsafe, and in the discharge of his official duty ordered a new sidewalk built, which was done. It is impossible for your committee to know what the condition of said walk was when the Inspector ordered a new walk constructed; but we feel it is our duty to uphold all city officials in the performance of their duty. The city has suffered severely by reason of defective sidewalks, and too much care cannot be given to their improvement. We recommend that the prayer of the petitioner be denied.

Respectfully submitted,

SEYMOUR FINNEY.

Accepted and adopted.

Respectfully,

WILLIAM O'REGAN,  
JAMES HARTNESS, JR.

Adopted.

Ald. Finney and Ald. Peterkin were excused from further attendance on this session.

PETER BUSH,

Deputy Controller.

Accepted and referred to the Committee on  
Claims and Accounts,

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—I have been served with a declaration in a suit commenced in the circuit court of the United States for the eastern district of Michigan by Mary Schmitt against the City of Detroit.

Plaintiff sues to recover fifteen thousand dollars damages for injuries sustained by being thrown from a wagon on Vinewood avenue.

I recommend that it be referred to the City Counselor with instructions to defend the interests of the city.

Respectfully,

PETER BUSH,

Deputy Controller.

By Ald. Jacob.

Resolved, That the City Counselor be and he is hereby instructed to defend the interests of the City in the case of Rhoda Southwell against the City of Detroit, appealed to the Supreme Court.

Adopted as follows:

Yeas—Ald. Amos, Burt, Fairbairn, Gilmore, Griggs, Guiney, Hartness, Hayes, Holihan, Jacob, Karrer, Kellogg, Lally, Lander, McGuire, McIntyre, Meier, O'Regan, Peterkin, Pfeiffer, Reichenbach, Reschka, Reeves, Smith, Tierney, Uthes and the President—27.

Nays—None.

FROM THE CITY COUNSELOR.

To the Honorable the Common Council.

Gentlemen—The case of the City of Detroit against Amos Chaffee, which was taken to the Supreme Court by your direction, has been decided in favor of the city.

It will be remembered that a judgment for some \$2500 was recovered against the city in favor of one Thomas for damages occasioned by a defective sidewalk in front of Chaffee's premises, and this suit was brought against Chaffee, as owner, to compel him to pay to the city the amount of the judgment in the Thomas case.

The defendant denied his liability and the case was hotly contested in both courts.

I have just received from the clerk of the Supreme Court a copy of the opinion delivered by Judge Champlin and concurred in by Justices Sherwood, Moore and Long. Judge Campbell did not hear the argument.

The case is an important one for the city, and I suggest that steps be at once taken to place every owner of property in front of which there is a defective walk in the same

position that Chaffee occupied when the injury to Thomas occurred. To do this notice should be given to the owner to repair or rebuild in every case of defective walk. The notice should be personally served and proof of service made and placed on file.

I submit herewith a resolution and recommend the adoption of the same.

Yours respectfully,

JOHN W. McGRATH,  
City Counselor.

By Ald. Jacobs.

Resolved, That the Board of Public Works be and they are hereby instructed to report to this body all cases of defective sidewalks, with the name of the owner of the abutting property in each instance.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—In the case of Rhoda Southwell against the City of Detroit, in which a verdict was recently rendered in favor of the city, the plaintiffs have given notice of an appeal to the Supreme Court, and I await your instructions.

Very truly,

JOHN McGRATH,  
City Counselor.

Accepted and the communication concurred in as follows:

#### FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—At the last session of your Honorable Body, contrary to the recommendation of the board, Berea curbstone was substituted for Medina curbstone in paving Grandy and Baltimore avenues. In recommending Medina curbstone the board had in view its durability and impenetrable quality. From experience had in the use of Berea curbstone the board is satisfied that it is not suitable for the purpose, inasmuch as it is brittle and liable to break on being struck by coal carts or heavy trucks, and to scale on being exposed to changeable weather; hence, when the time arrives for the repaving of a street where Berea stone has been used, its dilapidated condition would necessitate the replacing of the same with new curbstone; therefore, as a source of economy to the city, the board deemed Medina curbstone preferable.

The board calls your attention to this matter, not with any desire to question the prerogative of the Common Council in determining the kind or quality of material to be used in paving streets, but with a view of having your Honorable Body give the matter that consideration which its importance seems, by the board, to demand, before determining the same, especially after the recommendation was concurred in by your Committee on Streets.

Respectfully submitted,

W. H. LANGLEY,  
President.

Accepted and referred to a Special Committee.

## COMMUNICATION.

To the Honorable the Common Council of the City of Detroit, Detroit, Mich.

Gentlemen—This company is prepared to make the excavation for its approaches and the proposed crossing of the Belt line under Jefferson avenue, at the eastern end of the city.

In the performance of this work there will be a large amount of earth, probably something over 17,000 yards, to dispose of. The excavation being of good hard soil, nearly all clay, there have been numerous applications to this company to buy the same.

On account of the proximity of the crossing to the Belle Isle bridge the city should have this earth to fill in the approach for the bridge. There would be but a very short haul, and the character of the earth is such that it would make the best possible filling-in for the approach.

It would be better for this company to have the earth promptly removed as it is excavated than to sell it in small lots and be impeded in the course of the work. I am therefore authorized to make the following proposition:

This company will give the dirt to the City of Detroit and load it into the wagons for removal if the city will supply enough teams to keep fifty shovellers going.

If your honorable body will refer the matter to the Board of Public Works, with power, or to the proper committee, I will be glad to exhibit the proposed plans for the undercrossing and to enter into arrangements to give the city the dirt as above.

As the work of construction may be said to be already in progress, your prompt attention will oblige,

Yours truly,

HENRY RUSSELL,  
General Attorney.

Accepted and referred to the Committee on Bridges.

#### MAJORITY REPORT.

To the Honorable the Common Council.

Gentlemen—Your Special Committee on the Assessment Rolls, to whom was referred the petition of the Detroit Union Railroad Depot & Station Company remonstrating against the assessment of a portion of its property fronting on Woodbridge street, respectfully report that we have carefully considered the matter and listened to the arguments of the President of that company, Hon. James F. Joy, and of the City Counselor in reply. We find that the Legislature in 1881 passed an act authorizing the incorporation of companies for the construction of union railroad stations and depots, with the necessary connecting tracks, and the management of the same; and that Sec. 1 provides "for the acquiring, by said corporations of the necessary station grounds and constructing and maintaining railway freight and passenger depots, with the necessary tracks and other accommodations, to make suitable and proper connections with all railroads terminating therein, or who may desire to have access to such depots." Sec. 21 provides "that any such company shall pay an annual tax of 2½ per cent on their gross receipts, in lieu of all other taxes, upon the property of such companies, except such real estate as is owned and can be conveyed by such corporation and not actually occupied in the exercise of its franchises and not necessary for the proper use thereof, etc., etc. Section 28 provides "that such companies shall provide suitable accommodations, at a reasonable compensation, for any and all railroads terminating, or connecting, or desiring access thereto, and shall provide suitable tracks therefor without discrimination in favor of or against any of such roads; and if the corporations can not agree upon the terms of compensation for the accommodations furnished then the Commissioner of Railroads shall determine it, which shall be uniform to all, etc., etc." Now we submit, that the prayer of the petitioner should be granted for the reason that the placing of any property on the assessment rolls is after all a matter of individual construction of the law governing the subject by the persons charged with that duty, and we think the judgment of the officers of this company as to what is necessary for the proper exercise of their duties and obligations under their franchise is entitled to more consideration than the opinions of outside parties, who, from want of experience, are not qualified to determine upon so important a matter. Again we submit that the possession of all the ground now held by this company is absolutely

necessary to enable them to perform the obligations laid upon them under their franchise. In our judgment the time has passed for the Common Council of this city to lay any burden upon those who are endeavoring to increase the business of the metropolis of the state. Already are there new and important lines of railways seeking for terminal facilities in our city. Is it wise, or prudent, or just, to our constituents, or good business judgment to oppress the public-spirited citizens who have invested large sums of money to provide adequate terminal facilities, and who are taxed by the act of the legislature under which they are organized? What member of the Board of Assessors, or what member of the Common Council, can say that before the tax which it is proposed to place upon them becomes due they may not be called upon to lay tracks and erect costly buildings upon the land, which the Assessors claim is not now occupied?

Has it come to this, that because reputable citizens have by years of toil and prudent business management, acquired enough of this world's goods to enable them to inaugurate such large and important movements for the future growth and prosperity of our city, that they shall be punished for their enterprise and foresight by being unjustly discriminated against and for the only reason that we are able to discover, because they are rich? We do not think we can afford to order this assessment to stand upon the rolls, and we recommend that the prayer of the petitioner be granted and the Board of Assessors directed to strike the assessment from the rolls.

Respectfully submitted,

JACOB F. MEIER,  
S. A. GRIGGS,  
D. C. KELLOGG.

Majority.

#### MINORITY REPORT.

To the Honorable the Common Council.

Gentlemen—Your Special Committee on the Assessment Rolls, to whom was referred the petition of the Detroit Union Railroad Depot & Station Company, remonstrating against the assessment of a portion of its property fronting on Woodbridge street, respectfully report that we have heard the report of the majority, and while we do not desire to recommend any action that can be construed as oppressing any public spirited citizen, yet we do recommend that the prayer of the petitioner be denied, for the reason that we consider it the duty of the committee to be guided by the advice of the law officers of the city, and we submit, that while the Board of Assessors or the members of this body, or the City Counselor, may not be as well qualified to judge of the necessities of this company as the honorable gentleman who represented it before the committee, yet the City Counselor, we claim, is as well qualified to interpret the law which governs the Board of Assessors as the President of the Depot Company, and as the City Counselor advises us that it is lawful, right and proper for this assessment to be made, we protest against the striking off of the assessment, but that it remain until the unoccupied land be built upon and used for the purposes provided in its franchise.

Respectfully submitted,

JOHN CHR. JACOB,  
C. K. THROMBLY.

enth street, on the line of the Boulevard, for Boulevard purposes; that at the time of this conveyance, this land was subject to a mortgage, which has since been foreclosed and the property bid in by Laura M. Beardslee.

She, as owner, now institutes this proceeding to recover possession of these lots. I have procured an adjournment of the case until next Monday, and it should receive prompt attention.

Very truly,

JOHN W. McGRATH,  
City Counselor.

Accepted and referred to the Boulevard Commissioners.

FROM THE SAME.

To the Honorable the Common Council.

Gentlemen—You ask my opinion as to the action of the Board of Park Commissioners in refusing to adopt a resolution applying the recent appropriation and tax levy to certain purposes specified in the resolution.

The facts as I understand them are, that the Board of Park Commissioners in February last submitted to the Common Council and the Board of Estimates an itemized estimate of the amount required for maintenance of and improvements upon the Park, which amount aggregated the sum of \$231,000.

The Common Council reduced the aggregate amount to \$139,000, cutting down some of the items and striking out others, and transmitted to the Board of Estimates the itemized statement aforesaid, with reductions and modifications made by the Common Council. This statement embraced some eighteen different but specific items, varying in amount from \$400 to \$60,000.

The Board of Estimates, however, did not deal with the items of this statement, but by resolution reduced the aggregate appropriation from \$139,000 to \$15,000, taking no action which indicated the reduction or elimination of any specific items.

The Common Council afterwards adopted a resolution directing the Controller to place to the credit of the Park Board the \$65,000 derived from the sale of the Public Improvement bonds.

While I am of the opinion that the Board of Park Commissioners may be required to appropriate moneys received from taxes levied for a specific purpose to such purpose and to that only, I am satisfied that there has been no such designation in the present instance of the \$15,000 as would be binding upon the Park Board.

With reference to the proceeds of the bonds the Common Council made no application of the amount to any specific work, if they had the power so to do, and the Board of Park Commissioners are authorized to use the sum for the purposes named in the act authorizing the issue of the bonds, as in their judgment they deem best.

Most respectfully,

JOHN W. McGRATH,  
City Counselor.

Accepted, and on leave the following resolution was offered:

By Ald. Holihan.

Resolved, That the communication of the City Counselor be referred to the Committee on Ways and Means and Public Parks, to report on the facts in reference to the appropriations made and provided for the Bell Isle park fund and report thereon at the next meeting of this body, so that the intent of the law may be complied with, and the understanding and will of the Board of Aldermen and Board of Estimates in relation thereto, may be carried into effect.

Accepted and adopted.

FROM THE SAME.

To the Honorable the Common Council, Gentlemen—I hereby nominate and appoint, subject to your confirmation, Fred H. Warren as Assistant City Counselor for the year ending June 30, 1899.

Mr. Warren has been a resident of this city since September last, having at that time permanently located here.

He has been in active practice for some nine years, was Prosecuting Attorney of Livingston County for two years, and is thoroughly competent to perform the duties of the position.

I respectfully ask for his confirmation.

Very truly,

JOHN W. McGRATH,  
City Counselor.

Laid over under the rules.
